

## Homer Area Transportation Plan 2005

The Homer Area Transportation Plan was produced to be a comprehensive transportation-planning tool for the City of Homer. Additionally, the Non-Motorized Trails and Transportation Plan should be considered a companion document to the Transportation Plan, as it is the City's policy document for comprehensive long-range non-motorized transportation and trails system. This study will provide a general guide for planning and funding requests for road and trail transportation capital improvement projects for the next 20 years. This plan is not intended to identify site-specific locations of improvement.
