

Permits

Planning and Zoning permits

Planning and Zoning staff are available to help you through the permit process, to save you time, money and effort! Contact us early and often when planning your project.

Planning and Zoning staff issue several types of permits. **The City of Homer does not have a building inspection program and does not issue building permits.** [Click here for more information.](#) However, Zoning permits are required prior to clearing, developing property, and new construction, including additions. Small accessory buildings such as tool sheds and greenhouses, under 200 square feet, detached from a main building, may be exempt from permitting but must still meet setback requirements. Still not sure if you need a permit? Give us a call or check out our brochure.

Common permits include:

- [Zoning permit](#)
- [Driveway Permit](#) (see public works)
- Water/sewer permits (see public works)
- Wetland documentation if there are wetlands on the property

Commercial permits include all of the above, and also require a [state fire marshal certificate](#), a Development Activity Plan and [Storm Water Plan](#) (NOT the same as a state SWPPP for disturbing an acre or more) may also be required. A [Fire Marshal Approval Letter](#) is often needed for existing commercial buildings (7-years or older) that have not had a previous Fire Marshal Plan Review.

Usually, the [zoning permit](#) will only be issued if all other permits have been acquired and a copy supplied to the planning department. If everything is in order, permits are typically issued within 5-10 working days.

If your project requires a Conditional Use Permit or other approval requiring a public hearing in front of the Planning Commission, generally **add at least two months to the timeline.** Planning staff can discuss your specific project and timeline with you.

Who to contact

Army Corps of Engineers, Kenai Office (907) 283-3519. Here's the link to the [ACOE application](#).

Here's the link to the [ACOE checklist](#). Scroll down to pg. 4 for a sample drawing.
