

## The Budget Process

The budget process begins in August when Finance submits budget work sheets, including salary and fringe benefits cost, to each department. The Manager meets with the Department Heads and outlines his general budget policies and goals at this time.

By the third Friday in September the City Manager present to the Council an overview of preliminary budget assumptions. These preliminary assumptions will address by fund, revenue projections, tax and utility rates, program additions or deletions, wage and benefits, or other issues with potential impact on the City's overall financial condition.

The departmental budgets are received by the finance department and entered into the computerized budgeting system. This information is shown in the budget document on the department budget pages in the "Manager's proposed" column. The resulting computer reports are then routed to the department heads for their review. After adjustments are made, the Manager, along with the Finance Director and the appropriate department head, reviews each departmental budget. As the Manager makes changes to the department's proposed budget, his recommended changes are entered into the computerized budget system under the "Manager's proposed" column for the preliminary budget document. The City Council makes the final adjustments to the budget, and the final budget amounts appear in the "Council adopted" column of the final budget document.
