

MEMORANDUM 07-130

DATE: July 19, 2007  
TO: Walt Wrede, City Manager  
FROM: Mark Robl, Chief of Police  
SUBJECT: Special Services Contract Renewal

The state has proposed to renew our special services contract. This contract requires us to provide building access and some clerical services to the troopers, secondary dispatch services and prisoner care and transport for their pre-arraignment arrestees. It is essentially the same contract for services we have had with them for the past 20 years. The state requested to reduce the amount of the contract since the troopers are no longer co-located with us but I rejected that request based on the increase in the number of arrestees they have been booking through our facility. So this is a status quo renewal and I support it.

Recommendation: Council approval of the special services contract with the state for FY 2008.

Fiscal note: General Fund Revenue 4505, \$72,500.
