MEMORANDUM *08-105*

TO: Walt Wrede, City Manager *W. Wrede*
THRU: Carey Meyer, Public Works Director
FROM: Tamara Hagerty, Park Maint. Coordinator *T. Hagerty*
DATE: 20 May 2008
SUBJECT: BEN WALTERS PARK DOCK

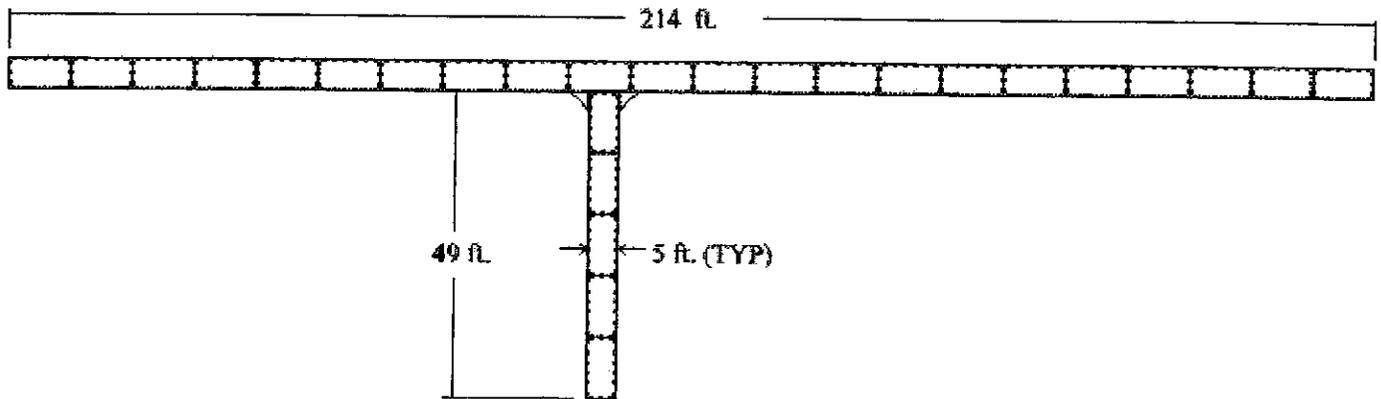

With the deterioration of the old dock at Ben Walters Park maintenance is becoming a constant battle. Last week we had to remove two more end sections, this week was more damage with high winds and rotten boards coming apart. Replacing this dock has been on the CIP list for many years.

The original idea was to replace the existing structure with a like type/style of wood, but I have attached a quote for a different style that is more economical. \$48,851.00 for the material to get here (quote good for 180 days from 05/09/08); plus estimated dock removal and labor of \$4,000 and the addition of driving four piling (CRC=\$350/each) and purchase (Morgan Steel \$1600, this price is only good for two weeks and they advise the price will be going up again), to be driven to stabilize the system (which would have to be installed in the winter).

Permitting to be done by the city if it is necessary.

This whole project may be the easiest to do in the winter after the lake is frozen.

Costs:	Phase I:	Dock FOB Homer	\$48,851.00
		Labor demo/install	4,000.00 = \$52,851.00
	Phase II:	4 piling	1400./1600
		Plus 4 more hoops	1,040.00, plus freight
	Grand Total		\$57,891.00

Bill of Materials

Quant.	Description	Part #	Price	Ext.
27	60" x 10' Dock Section	206010	1295	34,965
