

Candidate Statement: Donna Aderhold

Before moving to Alaska in 1990 I lived in many cities and towns in many states throughout the country. When I moved to Homer I found the community that feeds my soul, the community that I want to actively participate in and serve. I revel in the diverse viewpoints and outspoken nature of Homer residents.

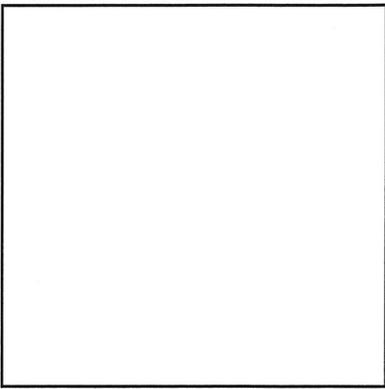

As a senior wildlife ecologist working for an engineering consulting firm, I work daily to evaluate the effects of projects on the human and natural environment. I base my analyses on facts, available data, and input from people who may be affected by a project. If elected, I will bring this balanced approach to decision-making to the Homer City Council. My strategy will be to gather facts and data about each issue that comes before the council, listen to the citizens of Homer, and make educated decisions that are in the best interest of the City now and into the future.

I look forward to hearing from you and working for you.
