## Legend

- City Limits
- State Buffers
- Additional City Buffers
- Permitted
- CUP
- No Commercial Cannabis Businesses

0 0.5 1 Miles

Proposed state regulations call for buffers to be measured between the public entrance of the cannabis business, and the public entrances of churches and jails. Distances for schools and youth/rec centers are measured from the boundaries to the front door of the cannabis business. All distances are measured by the shortest pedestrian route.
