

REQUEST FOR PROPOSALS
By the City of Homer, Alaska
For Design and Build Completion of Fish Dock
Waterline and Heat Trace System Replacement

PLAN HOLDERS LIST

City of Homer's Port and Harbor is requesting proposals from qualified firms for the design and replacement of the Fish Dock waterline and heat trace system. The City of Homer provides potable water at seven locations on the Fish Dock during the summer and at three locations during the winter. The current waterline is a 30 year old galvanized pipe which is heavily pitted and needs to be replaced. The heat trace system is also old and failing. We are therefore soliciting bids from contractors to replace this old system with modern materials.

There is a **mandatory Pre-Bid meeting and walk-through** to be held on **Monday, November 13, 2017 at 10:00 a.m.**, located at the **Ice Plant, 795 Fish Dock Rd.**

Sealed Proposals for **Design and Build Completion of Fish Dock Waterline and Heat Trace System Replacement** shall be received at the Office of the City Clerk **no later than 4:30 p.m., Thursday, November 30, 2017.** The time of receipt will be determined by the City Clerk's time stamp.
