

## Candidate Statement

Robert (Bob) Howard

My professional experience spans over 35 years, during which I worked as a Civil Engineer, general building and general engineering contractor working in both private and municipal sectors. In municipal, I've been city engineer and director of public works, served on various commissions and I am familiar with operations of a city.

I have worked diligently to educate myself on our local issues of taxes, environmental concerns, recreational needs and public buildings as an example.

We have good information about our proposed public safety building and our recreational needs that have been gathered and I look forward to having meaningful discussions about these important matters. Let me hear from you. Call me at 907.299.3727.

You can count on me to work for sound public policy and practices for our city by decision making based on facts. I will do my best to hear your voice and bring your concerns to the city council, working for the majority of the voters.

Remember, it is very important to get to the polls and vote, Tuesday, October 6.

I sincerely appreciate your consideration and ask you to vote for me.

Robert (Bob) Howard
