

I am a lifelong Alaskan and have been a resident of Homer for the past 38 years. Homer is a fantastic community with so much potential. My many years of experience as a teacher, school administrator, and college leader means I have relationships with many of you on a first-name basis. I value those relationships.

For the past six years, I have served on the Homer City Council, and I am proud of those issues that the Council worked on together. We need to encourage and support our businesses on Pioneer Avenue and actively pursue ways to increase City revenue to help ensure a brighter future for our hometown.

In my third term, I look forward to:

- Developing a plan forward for a Recreation Center in Homer.
- Working closer with City Commissions to keep avenues of communication open.
- Supporting the pedestrian, trails, and sidewalk development.
- Ensuring that all city departments are adequately staffed for growth.
- Helping to facilitate ADA compliance in new/existing properties in Homer.
- Being accessible to you, the public.

I ask for your vote on October 3rd.
