

As a parent and business owner in Homer, I am seeking a third term representing the community on City Council. As a Councilmember, I have worked hard to bring an informed and analytical voice to budget and policy decisions. My main priority is a financially sustainable and responsive City that provides a strong foundation of services for its citizens.

During my time in office, I have worked extensively on capital projects, budgeting, and improving City Code to better serve the community. I continue to work on long-term solutions surrounding traffic/speeding, pedestrian safety, and recreation. As we look into the future, housing for working families is a critical need and I am excited to work with the community to map a way forward that allows Homer to grow and thrive. With my background and experience, I am also dedicated to helping develop a strong fiscal plan for the City that helps ensure long-term stability and services within our means.

I believe that great local government requires listening, learning, and working together with public engagement in a transparent public process. I am a moderate, hardworking, dedicated community member and I hope to serve you for a third term on City Council.
