Domestic sewer service customers who use large quantities of City water in addition to their domestic use shall be allowed, with the Public Works Director's approval, to install an additional water meter on the domestic water use line for the purpose of metering and charging for domestic sewer system use. Sewer system use will be billed monthly.

The City will allow, upon approval by Public Works and a permit from the Public Works Department, a second water usage meter – called a seasonal sewer meter – for each customer that desires to measure the flow of City water that is not discharged to the sewer system during the summer growing season, June 15 through September 15.
