

CITY OF HOMER

Comprehensive Plan Rewrite

Community Work Session

Tuesday, October 22, 6:00-8:00 PM

Alaska Islands & Ocean Visitor Center

95 Sterling Highway #1, Homer, AK 99603

Join us as we explore how population and job growth might change land use and development patterns in Homer over time.

Using a combination of community input and other information, the project team is developing **three potential growth scenarios** to explore how Homer could change over the next ten years.

The **three scenarios will be shared at the Community Work Session**, with both in-person and virtual options to share your thoughts.

This exercise will assist in developing goals, objectives, and recommendations for the Comprehensive Plan Rewrite and Title 21 Revision.
