

HOW TO STAY SAFE WHEN A TSUNAMI THREATENS

Prepare NOW

Know your tsunami zone

Know your evacuation routes

Know the tsunami warning signs; sign up for alerts

Make a family emergency plan

Make a "TO GO" bag and home survival kit

Survive DURING

Drop, cover & hold on in earthquake

If quake is long or strong, GET GONE

If out of hazard zone, STAY OUT

If in water, grab onto flotation

If boating, face the waves and head out to sea

Be Safe AFTER

Listen to alerts and authorities

Stay out of flood waters, avoid debris

Downed power lines can electrically charge water

If in doubt, sanitize drinking water

Save phone calls for emergencies; use text to contact family and friends
