Water & Sewer Rate Task Force Tuesday February 19, 2013 Worksession 5:15p.m.

City Hall Conference Room - Upstairs 491 E. Pioneer Avenue Homer, Alaska 99603

Prepared and Produced by the City Clerk's Office - 2/14/2013- rk

•

NOTICE OF MEETING WORKSESSION

- 1. CALL TO ORDER
- 2. APPROVAL OF THE AGENDA
- 3. PUBLIC COMMENTS REGARDING ITEMS ON THE AGENDA
- 4. RECONSIDERATION
- 5. APPROVAL OF MINUTES (Minutes are not approved during worksessions)
- 6. VISITORS
- 7. STAFF & COUNCIL REPORT/COMMITTEE REPORTS/BOROUGH REPORTS
- 8. PUBLIC HEARING

9. PENDING BUSINESS

A. Discussion and Recommendations on FINAL Draft Rate Model, Customer Matrix and Letter and Presentation to City Council Page 5 B. Memorandum to Task Force dated February 12, 2013 Re: Review of Proposed Rates by City Manager and Finance Director Page 51

10. NEW BUSINESS

11. INFORMATIONAL ITEMS

- **12. COMMENTS OF THE AUDIENCE**
- **13. COMMENTS OF THE CITY STAFF**

14. COMMENTS OF THE CHAIR

15. COMMENTS OF THE TASK FORCE

16. ADJOURNMENT the next **REGULAR MEETING** with **PUBLIC HEARING ON FINAL DRAFT RATE MODEL** is scheduled for **MARCH 5, 2013** at 5:30 p.m. in the Cowles Council Chambers, City Hall, located at 491 E. Pioneer Avenue, Homer Alaska.

WATER & SEWER RATE TASK FORCE

Water and Sewer Rate Task Force Purpose:

Second Public Hearing

March 5, 2013

TO EXAMINE THE EXISTING RATES AND RATE STRUCTURE TO PREPARE A RECOMMENDATION TO COUNCIL ON A RATE AND RATE STRUCTURE FOR 2013.

The Assignment

- Established by Resolution 12-027(A), Tasked with reviewing the existing rates and rate structure
 - Provide proposed rates for 2013
 - Provide written report to City Council no later than June 25, 2013

How Did the Task Force Prepare

Reviewed a variety of data

- The last rate study 1997
- Reviewed the Current Rate Structure as Established by Resolution 11-094(S)
- Compared Rate Structures from Other Cities
- Determined what knowledge was required in order to make an informed recommendation
 - Consulted Manuals, Documents and information supplied by Staff
- Considered previous changes and determine the reasons supporting those changes

Why is our system so expensive

- The number one question on everyone's mind
 - Contributing factors :
 - Regulatory Compliance & Staffing
 - Expenses besides usage
 - Lack of System Density
 - Unconnected properties
 - Cost of treating water and waste
 - Flushing water
 - Water lost on docks
 - Seasonal users
 - Fire Hydrants

Rates Comparison

Considered Rate Design Options

WHAT DO THESE NEW RATES MEAN TO ME?

Example # 1 The vast majority of customers will fall under this rate. The first line on your bill is the Customer Service Charge for Water: It is a flat fee for both water and \$ 18.00 sewer The second line on your bill is for water per 100 gallons Multiply your consumption by 1.19 Example: 35x 1.19 = \$ 41.65 The third line on your bill is the Customer Service Charge for Sewer There is just one service fee \$ The fourth line on your bill is the septage per 100 gallons Multiply your consumption by 1.5 Example: $35x \quad 1.50 = 552.50$ Total for this example using 3500 gallons: \$112.15 So for most customers you simply multiply your metered water \$2.69 by and add the \$18 service fee Example: 35x 2.69 = \$ 94.15 then add 18.00 = \$112.15 \$112.15 x 0.075 = \$ 8.41 Multiply that number by 7.5% for the tax Add them together = \$120.56

HOW MANY GALLONS DO YOU USE EACH MONTH?

For *most* residential and commecial users:

If you have multiple units:**

| Gallons Used: | Your Total Bill:* | Your Total Bill:* |
|---------------|-------------------|------------------------------------|
| | | 2 unit 3 unit 4 unit 6 unit 8 unit |
| 1000 | 48.27 | 53.64 59.02 69.77 80.52 91.27 |
| 2000 | 77.19 | 82.56 87.94 98.69 109.44 120.19 |
| 3000 | 106.10 | 111.48 116.85 127.60 138.35 149.10 |
| 4000 | 135.02 | 140.40 145.77 156.52 167.27 178.02 |
| 5000 | 163.94 | 169.31 174.69 185.44 196.19 206.94 |
| 6000 | 192.86 | 198.23 203.61 214.36 225.11 235.86 |
| 7000 | 221.77 | 227.15 232.52 243.27 254.02 264.77 |
| 8000 | 250.69 | 256.07 261.44 272.19 282.94 293.69 |
| 10000 | 308.53 | 313.90 319.28 330.03 340.78 351.53 |
| 12000 | 366.36 | 371.74 377.11 387.86 398.61 409.36 |
| 15000 | 453.11 | 458.49 463.86 474.61 485.36 496.11 |
| 20000 | 597.70 | 603.08 608.45 619.20 629.95 640.70 |
| 30000 | 886.88 | 892.25 897.63 908.38 919.13 929.88 |
| 40000 | 1176.05 | |
| 60000 | 1754.40 | |
| 100000 | 2911.10 | |

* City sales tax included

| то: | MAYOR WYTHE & HOMER CITY COUNCIL |
|-------|---|
| FROM: | WATER & SEWER RATE TASK FORCE |
| DATE: | MARCH , 2013 |
| RF: | PROPOSED WATER & SEWER RATES AND ADDITIONAL RECOMMENDATIONS |

BACKGROUND

Attached is the Water & Sewer Rate Task Force's ("the Task Force") recommendations regarding the rate-setting model for the City of Homer Water & Sewer services. The Task Force was established in accordance with the provisions of Resolution 12-027(A), consisting of five City of Homer residents (Ken Castner, Bob Howard, Sharon Minsch, Lloyd Moore and Terry Yager) and two City Council members (Barbara Howard and Beth Wythe), appointed by Mayor James Hornaday through Memorandum 12-056. Subsequent to the original appointments, community member Terry Yager submitted his resignation from the Task Force and the seat remained unfilled for the duration of the review process. Also, following the October elections, Beth Wythe was authorized to continue on the Task Force in November and was replaced by Council Member Beau Burgess through Memorandum 12-161(A). Copies of all Resolutions and Memoranda are included in the appendix of this report as supporting documentation.

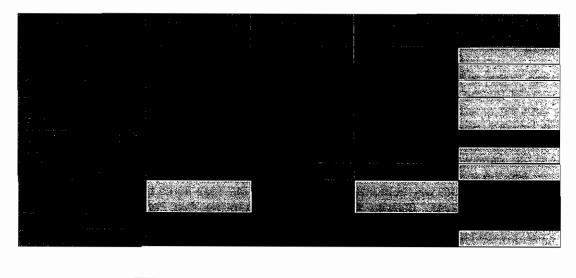

Following the establishment of the Task Force the initial meeting was held May 9, 2012. At this meeting the Task Force established the framework for a meeting schedule for meeting the first and third Tuesday of each month with the first Tuesday being a work session and the third Tuesday being a regular meeting. All work sessions and meetings were scheduled in the conference room. The schedule was adjusted from time-to-time to accommodate holidays and scheduling conflicts for members of the Task Force.

The initial meetings of the Task Force were primarily focused on determining the types and sources of information that would be required to allow the Task Force to more fully understand rate making concepts and the nature of the City of Homer's current rate design. This process included:

- Reviewing the 1991 Water and Wastewater Utilities Rate Study conducted by KPMG Peat Marwick.
- Reviewing the 1997 Utility Rate Study prepared by Montgomery Watson. Task Force Members Castner and Moore were participants in that rate study as well and were able to provide valuable insight into the resulting rate model which was successfully used by the City until recent history.
- Reviewing budget documents from several prior years, as well as more current information included in the proposed 2013 budget.
- Reviewing the areas served by the Water & Sewer Enterprise and discussions related to potential
 users that have a disproportionate impact on the existing infrastructure. These include the
 requirements of the system specific to providing fire hydrant services, commercial building
 sprinkler services, and the expense of delivering water and returning sewage to the Spit.
- The requirements for certified staff and the staffing plan for the water and sewer treatment plants were reviewed, as was the allocation of other staff services to the Water & Sewer Enterprise.
- The loss of large volumes of treated water as a result of dead-ended lines.
- Rates from other nearby communities were reviewed and the reasons for the difference in
 operating costs as well as coming impacts for new regulations on these systems as compared to
 the Homer system were discussed.
- User data was reviewed to develop a sense of the "average" user, and again to develop a better understanding of the disproportionate users.

- Staff provided an overview of both the water system from treatment to return, and the sewer treatment from return to treatment.
- Fire protection expenses.

Following the collection and review of this volume of information the Task Force considered a variety of ratemaking formulas with consideration for fairness and consumer satisfaction.

Low.

Satisfactory

Upon considering the various rate design options, the Task Force determined that focusing its energy on designing a commodity based rate structure that took into consideration expenses that were not directly related to the delivery of service to consumers, such as system size due to fire hydrants, bringing water to the Spit, **(improve list)**, and also considered extraordinary expenses on the sewer side (BOD?)_____.

The recommendations of this report are based on these presumptions and result in the Water & Sewer Enterprise collecting the needed funds, but distributing the expense for the system more equitably based on a cost-causer, cost-payer foundation.

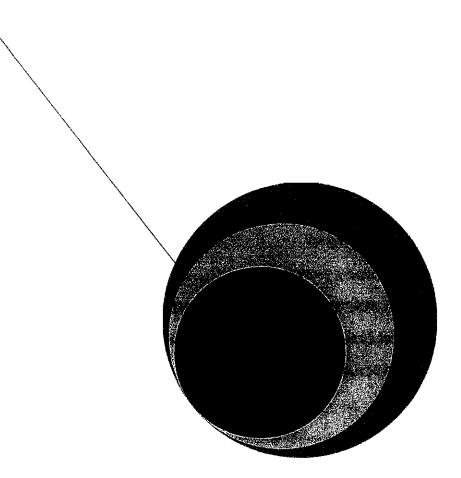

Respectfully submitted,

 HOMER WATER & SEWER TASK FORCE

 Chair:
 Mayor Wythe

 Vice Chair:
 Beauregard Burgess

 Current Members:
 Ken Castner, Robert Howard, Sharon Minch, and Lloyd Moore

Water & Sewer Rate Task Force Rate Review Recommendation Report – Draft

Fair and equitable distribution of system expenses based on cost-causer.

This document contains a review of findings of the 2012 Water & Sewer Task Force and a recommendation for a commodity based rate structure.

Contributing Task Force Members:

Beauregard Burgess, Ken Castner, Barbara Howard, Robert Howard, Sharon Minsch, Lloyd Moore, Terry Yager, Beth Wythe

(DATE SUBMITTED TO COUNCIL) MARCH, 2013

INTRODUCTION:

(This section will provide an explanation of what lead to the development of the Task Force. What our commission was and briefly what the recommendation is.)

The City Council approved the creation of a Task Force after numerous Public Comments and complaints on the increase in the fees related to the Water & Sewer Rates.

The Water & Sewer Rate Task Force resolved to try and reach decisions that were not colored by sentiment or popularity. The City Council will be the final decider of any rate changes, and political decisions should be left to elected officials.

CURRENT RATE STRUCTURE:

This section will review what the billing system is currently and the resulting rates using three categories (residential, small volume commercial, and large volume commercial), etc.

The Task Force believes that a gallon of water or a gallon of waste should be of an equal base cost to all users, and when a class or location of users is found to be more costly, a surcharge is added.

Public Works states that the City's water system is designed to primarily handle the fire protection needs of the City. The current City contribution to the annual water budget does not meet the attributed costs that should be recovered through "hydrant rents".

The Task Force believes the service charge should reflect the actual cost of customer billing, banking and accounting.

FAIR AND EQUITABLE RATES:

This section will provide discussion on what makes a fair and equitable rate design.

The Task Force established that there were costs associated that were derived from the population in general (fire protection, City owned buildings, public rest rooms, fish cleaning stations and support of other services that use water in their day-to-day activities). Those costs should be borne by the City through its general fund.

General Fund tariffs should be the same as any other user.

There is an inherent fairness in charging all customers hooked into the system(s) the same rate for an indistinct commodity. A gallon of water is the same no matter what its use. A uniform rate provides leads to easy and automatic rate changes as the calculations are simple and transparent.

Fairness also requires that users that demand service beyond the normal, or create additional costs, be charged for those expectations and/or costs. Two examples of the former would be the small surcharge placed on those buildings with un-metered fire protection service lines and multi-unit complexes using a single meter. Two examples of the latter would be the additional cost of treating "hot" (high BOD) sewage and the costs of maintaining and powering the sewer lift stations.

SYSTEM REQUIREMENTS:

This section will provide an overview of why the system is sized the way it is and the resulting financial impact to the consumers.

DISPROPORTIONATE IMPACTS:

This section will review wasted water, the cost of sewage return due to lift stations, and BOD impacts.

OPTIONS FOR DISTRIBUTING COSTS TO CAUSERS:

This section will discuss the proposed reallocation of costs. The user fees proposed, the reallocation of expense to fire hydrants, etc.

CRITERIA FOR EVALUATING THE SOLUTIONS:

This section will discuss how we arrived at the use of a commodities based rate structure.

OTHER CONSIDERATIONS:

This section can include other items that we wanted to educate the community on. (staffing certification requirements, EPA regulation changes, etc.)

In establishing these new rates, the Task Force accepted the costs that had been promulgated by the City Administration and approved by the City Council.

Eighty percent of the combined budgets are costs necessary for the treatment and delivery of water for the City and its customers, together with the cost of collection and treatment of the produced effluent. The remainder is the allocated cost of administrative service.

The decision as to the size and appropriateness of that allocation, and the decision to use City employees to provide those services, rests with the City Council.

CONCLUSIONS:

This will be our recommendations list and supporting statements. Remember we need to include such things as "it is proposed that the rate model, if adopted, be managed without consideration of political influence and public out-cry", etc.

Excerpts from minutes:

5-22-12

"Some items to consider when determining rates and can be included in their recommendation and can be discussed later in their agendas:

- demand fee
- leakage
- theft
- costs allocation
- inspection of meters

Establishing a permanent Water & Sewer Board that is advisory to the Council.

Recommendation may include hiring a qualified consultant to review the system to see where savings can be implemented

6/19/12

- the recommendation to council focusing on the requirements of the system not political influences ensued.

MEMORANDUM

 TO:
 WATER AND SEWER RATE TASK FORCE

 FROM:
 RENEE KRAUSE, CMC, DEPUTY CITY CLERK

 SUBJECT:
 DRAFT RATE MODELS

DATE: FEBRUARY 12, 2013

Backgound

This item was not address at the last meeting.

The City Manager and Finance Director has requested the right to review the proposed rates for Water & Sewer before submittal to City Council to verify that they are in compliance with the Homer City Code, compatible with the Billing Software that the City uses and does not go against any Federal or State Regulations. This will allow them to formulate their Recommendation to City Council also.

RECOMMENDATION

Please notify Staff when to submit Proposed Rate Model to City Manager and Finance Director for review.
