# City of Homer Homer, Alaska

May 19, 2014

To the Honorable Mayor Mary E. Wythe Members of the City Council, The Citizens of the City of Homer:

The Finance Department is pleased to submit the Comprehensive Annual Financial Report of the City of Homer, for the fiscal year ended December 31, 2013. The purpose of the report is to provide the council, management, staff, the public, and other interested parties with detailed information reflecting the City's financial condition.

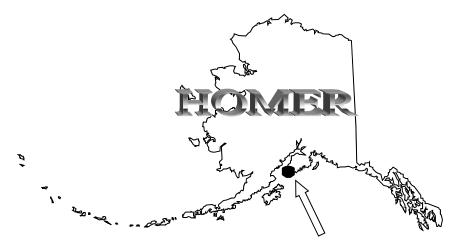

#### THE REPORT

This report satisfies Title 29 of the Alaska Statutes requiring annual audits of all municipalities. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the City. We believe the data is accurate in all material respects and is presented in a manner that fairly sets forth the financial position and results of the City. We also believe all disclosures necessary to enable the reader to gain an understanding of the City's financial affairs have been included. To provide a reasonable basis for making these representations, management of the City of Homer has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Homer's financial statements in conformity with Generally Accepted Accounting Principles (GAAP). Because the cost of internal controls should not outweigh their benefits, the City of Homer's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City is required to undergo an annual single audit in conformity with the provisions of the Federal and State Single Audit Act. Information related to the single audits, including the auditors' reports on the internal control structure and compliance with applicable laws and regulations are included in this report.

#### THE REPORTING ENTITY AND ITS SERVICES

The City of Homer is a first class General Law City incorporated in 1964 under Title 29 of the Alaska State Statute. City Code establishes a December 31 year-end.

Under the City's Code of Ordinances, the Council is comprised of a mayor and six council members who enact local legislation, determine policies, and adopt the City's budget. The mayor is elected for a two-year term and council members are elected for three-year terms with two council members being elected each year. The City Manager is appointed by the City Council and is responsible to them for the proper administration of the affairs of the City.

The City provides a full range of municipal services for the citizens of Homer and surrounding areas including planning and zoning, port and harbor, public works, airport terminal, water and wastewater services, library, parks and recreation, police protection, jail facilities, fire and emergency medical services and general administrative services. In addition to general governmental activities, the City provides financial support to certain community service organizations that promote education, health, recreation and economic stability for the citizens of the community.

The annual budget of the City of Homer serves as the foundation for the City's financial planning and control. The budget is prepared by the City Manager and adopted by the City Council in accordance with policies and procedures established by the City's ordinances. Formal budgetary integration is employed as a management control device during the year for the General Fund. Capital projects are budgeted on a project length basis. The objective of these budgetary controls is to insure compliance with legal provisions embodied in the annual appropriated budget approved by the Homer City Council. The legal level of control (that is, the level at which expenditures cannot legally exceed the appropriation) is at the fund level. The City Council may pass subsequent supplemental appropriations. Activities of the General Fund and Enterprise Funds are included in the annual appropriating budget. Appropriations lapse at the end of the year. The City maintains an encumbrance accounting system as one technique of accomplishing budgetary control. The appropriated budget is prepared and presented by fund, department (e.g. police) or function (e.g. debt service), and major cost category (e.g. personal services).

Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the general fund, this comparison is presented on page 54 as part of the required supplementary information for the governmental funds.

\_

<sup>&</sup>lt;sup>1</sup> Financial policies can be located beginning on page 15 of the City of Homer Annual 2013 Budget.

#### **Capital Projects**

A significant portion of economic activity and growth in Homer is directly related to capital investment in infrastructure. Much of this growth is currently fueled by public sector spending. The private sector economy shows signs of recovery and growth, particularly in the marine trades, tourism, and residential construction.

Major capital projects that are planned, or in progress in 2014 and 2015 include the following:

#### City of Homer Special Assessment District (SAD) Projects

A very significant portion of the City of Homer's financing (and debt) for capital project activity involves carrying out the City's commitment to provide basic water, sewer, and road services to community residents through the Homer Accelerated Water and Sewer Program (HAWSP) and the Homer Accelerated Roads and Trails Program (HART). Funding for projects under these programs is generated through a combination of dedicated sales taxes and assessments that are levied through Special Assessment Districts (SAD). In 2013, the City successfully completed the Kachemak Drive Water and Sewer Improvements (Phase II), Crittenden Drive Road Improvement, and Waddell St. Road Improvement SAD Projects.

In 2013, the City increased its indebtedness by borrowing \$12.7 Million from the Kenai Peninsula Borough to finance construction of a natural gas distribution system throughout the town. The loan will be paid through a special assessment district with assessments paid by benefited property owners.

Special Assessment Districts currently in the planning, design, and construction phase include:

- Kachemak Drive Water and Sewer Improvements (Phase III). This project would close the loop on Kachemak Drive and link water and sewer improvements constructed during Phases I and II. This potential SAD failed at the petition phase but the City anticipates that local property owners will mount another effort. The City plans to close the water loop independently using grant funds. Design work commenced in 2013 and will continue in 2014.
- Gas Utility SAD. In 2012 the Homer City Council approved a natural gas distribution system SAD. The City sold a bond to the Kenai Peninsula Borough in the amount of \$12.7 Million. The revenue from the bond sale will be used to finance construction of gas mains in approximately 73 miles of road within the City limits. Construction of Phase I, the downtown core was completed in 2013. The Homer Spit portion of Phase II was completed in May of 2014, and the remainder of Phase II is scheduled to be completed by August 2014.

#### OTHER CITY CAPITAL PROJECTS

- Deep Water Dock: The City and the Alaska Department of Transportation and Public Facilities recently entered into a Transfer of Responsibility Agreement (TORA) under which the City will take full responsibility for the project. Under this agreement, a \$2 million dollar federal earmark approved in 2005 will be combined with a \$1 million Legislative Grant to conduct a feasibility study on expanding and strengthening the Deep Water Dock. Feasibility work will commence in 2014.
- Skyline Drive Fire Station: At the City's request, the Legislature re-appropriated a \$2
  million grant intended for improvements at the Main St. and Sterling Highway

intersection to construct the long awaited fire station on Skyline Drive. Engineering and design was completed in 2013 and construction is anticipated during the summer of 2014.

- Harbormaster's Office: The legislative re-appropriation described above also provided most of the funding (\$1.5 Million) needed for a new harbormaster's office. The necessary \$500,000 match came from the Port Reserve Account. The City General Fund was tapped for the remaining funds in the form of a \$300,000 loan. The engineering and design phase is complete and construction will commence in the fall of 2014.
- Natural Gas Trunk Line: The 2012 State Capital Budget contained an \$8.15 Million grant
  to the City of Homer for construction of a natural gas trunk line from Anchor Point,
  through Homer, and on to Kachemak City. This is the large diameter pipe that will bring
  gas into Homer and serve the distribution system described above. Construction was
  completed in 2013 which enabled construction of the distribution system described
  above.
- Spit Trail: The City has received approximately \$2.1 Million in Legislative and Scenic Byways grants to complete the Spit Trail and make improvements to End of the Road Park. The City and the Department of Transportation and Public Facilities recently entered into a Transfer of Responsibility Agreement (TORA) which enables the City to proceed with the project. Engineering, design, and much of the construction is scheduled for 2013. The project will be completed in the Spring of 2014.
- Load and Launch Ramp: The City and the Alaska Department of Fish and Game recently entered into a Memorandum of Understanding regarding the reconstruction and rehabilitation of the Load and Launch Ramp in the harbor. The state is expected to bring about \$3 million to the table in construction funds and is paying for all of the engineering and design work. The City will be expected to contribute a local match for construction. Engineering and design commenced in 2012 and was completed in 2013. Construction is anticipated in the fall of 2014.
- Harbor Revenue Bond Projects: The City Council has identified several priority harbor improvement projects that total approximately \$ 8.9 million. Engineering and design funds were secured through a Denali Commission grant and a local match of harbor reserve funds. \$ 4.2 Million of the construction cost is was approved in the 2014 State Capital Budget and the City raised another \$4.2 million through the sale of revenue bonds through the Alaska Municipal Bond Bank. Construction activity will be completed in 2014.
- Cruise Ship Passenger Amenities: In 2011 the City received a Legislative Grant in the
  amount of \$6 million for improvements that directly benefit cruise ship passengers.
  Improvements will include a pathway around the harbor, a passenger staging area,
  restrooms at various locations, and improvements at the Deep Water Dock that will
  make docking and movement of passengers easier and more comfortable. Engineering
  and Design commenced in 2012. Construction began 2013 and will be completed in
  2014.
- The FY 2015 State Capital Budget contained funding for a new sheet pile dock within the confines of the small boat harbor. Engineering and design are expected to occur in 2015.
- The FY 2015 State Capital Budget contained funding for road improvements at Waddell Way. This is Phase I of the larger East-West corridor project contained on the City

- Transportation Plan and CIP List. Land Acquisition, engineering, and design are expected in 2015.
- Natural Gas Conversions: The City provided funds to convert six City buildings and facilities to natural gas in 2013. Another two buildings and several restrooms will be converted in 2014.

#### **Kenai Peninsula Borough Projects**

- The most significant Borough project in the Homer area at the moment is the closure of the landfill. This is a \$10 Million dollar project expected to be largely completed in 2014. Construction began in 2011.
- The 2014 State Capital Budget contained partial funding to install artificial turf at the Homer High School football field and to improve various Borough roads. The High School Project will be completed in 2014.
- The 2014 State Capital Budget contained funds to convert South Peninsula Hospital to natural gas; which was completed in 2014.

#### **State of Alaska Projects**

- A major airport improvement and expansion project is scheduled within the next few years pending the availability of funds.
- Funding to proceed with planned East End Road Improvements (beyond M.P. 3.5) is anticipated.
- The State has made repair and upgrade of Lake Street a priority STIP project and preliminary planning and scoping has begun. Construction is anticipated in 2014. A STIP Amendment currently out for public comment contains a proposal for upgrades to Pioneer Ave. This project could occur in 2015.
- The State is scheduled to undertake Phase II of its Homer Sterling Highway repaving project in 2014. The project will extend from the Sterling Highway intersection with Pioneer Avenue to the end of the Homer Spit. ADOT/PF will also undertake major improvements on the Spit Road where serious erosion has occurred which threatens the road itself.

#### **Major Private Sector Projects**

• Due to the overall downturn in the economy, the City did not experience large private capital investments or developments in 2013. Things appeared to be turning around slightly at the end of 2012 with renewed interest in subdivisions and construction. Several new commercial buildings and upgrades to existing buildings are planned.

#### **FACTORS AFFECTING FINANCIAL CONDITION**

#### Economy

Homer's economy is relatively diverse for a community of its size. Major seasonal components of the economy include commercial fishing, sport fishing, recreation, and the visitor industry. The primary employers include South Peninsula Hospital, Homer Electric Association, the Federal, State, Borough, and City governments, the marine trades, the service industry, a thriving non-profit sector, arts and music, independent entrepreneurs, and small, locally owned

businesses. Homer has been the number one commercial halibut port in the state in terms of pounds landed. The community has many economic assets including the largest single basin boat harbor in the state, an open access year around ice free port, an excellent airport, and access to the national highway system. Major attractions include the Pratt Museum, the Islands and Ocean Center, numerous art galleries, and unlimited recreational opportunities.

The City Council recently adopted a new Comprehensive Economic Development Strategy (CEDS). One of the objectives in adopting the Plan was to define and articulate the types of economic development the community supports and how to stimulate it. The Council is presently discussing implementation priorities and strategies. Large prospects for the future that could impact the local economy include green technology and energy development (both renewable and non-renewable), a proposed expansion of the Deep Water Dock, expansion and improvements at the airport, expansion of the Pratt Museum, the prospect of bringing natural gas to Homer, and development of the Pebble Mine. The CEDS places a strong emphasis on local food production, a sustainable economy based upon small local businesses, and building upon what Homer already is.

Economic growth in Homer has slowed over the past few years much as it has in the rest of the country. Economic activity in most sectors has declined. The City of Homer has been able to avoid significant cuts in programs and services so far due to conservative budgeting and fiscal management practices. But additional revenues will be needed in order to provide the high quality services residents expect and to keep up with maintenance, repair, and replacement obligations. It is important for the City to encourage the creation of more year around job opportunities so that young people can remain and working families can afford to live here.

#### **Long-Term Financial Planning**

Users of this document as well as others interested in the programs and services offered by the City of Homer are encouraged to read the City's 2013 Annual Budget. The document details the City's long-term goals and financial policies, describes program accomplishments and initiatives, and outlines the City's capital improvement program. The document can be obtained from the City of Homer's Finance Department by calling (907) 235-8121. The Annual Budget can also be accessed through the City's web site at www.ci.homer.ak.us and selecting the Finance Department.

# FINANCIAL INFORMATION Single Audit

As a recipient of federal and state assistance, the City is responsible for providing an independent audit to ensure compliance with applicable laws and regulations related to these programs. The reporting entity that is included in our Comprehensive Annual Financial Report is determined by the criteria set forth in the Codification of Governmental Accounting and Financial Reporting Standard, Section 2100. The criteria deal with the City's responsibility over a governmental organization and the scope of public service. Based on these criteria, the various funds (being all the funds of the City) shown in the Table of Contents are included in this report and there are no component units for which the City has responsibility.

#### ACCOUNTING SYSTEM AND BUDGETARY CONTROLS

The City's financial records for governmental fund types are maintained on a modified accrual basis. Revenues and other financial resource increments are recognized when they become susceptible to accrual. Expenditures are recognized when the fund liability is incurred except for inventories of materials and supplies, prepaid insurance, and similar items that may be

considered expenditures when consumed. The City's Proprietary Funds are accounted for on the accrual basis. The accrual basis means that financial records are affected when the revenues are earned and expenses are incurred.

#### Cash Management

All idle funds are invested according to the investment guidelines established by the City Council. Under this policy the City may use any of the following instruments:

- 1. U.S. Treasury securities 3 years
- 2. Other obligations by the U. S. Government, its agencies, and instrumentalities 3 years.
- 3. Repurchase agreements of acceptable securities listed in subsections 1 and 2 of this section, which meet a margin requirement of 102%; provided, however, the maturity limitations specified in those subsections do not apply if the securities in the repurchase agreement are marked to market daily.
- 4. Units of the Alaska Municipal League Investment Pool in accordance with an executed common Investment Agreement and in conformance with AS 37.23.010--37.23.900.
- 5. Certificates of deposit and other deposits at banks and savings and loan associations collateralized as provided in Section 3.10.070 3 years.
- 6. Uncollateralized deposits at banks and savings and loan associations, to the extent that the deposits are insured by the Federal Deposit Insurance Corporation (FDIC) or the Federal Savings and Loan Insurance Corporation 3 years.
- 7. Taxable bonds or notes which are issued by any state or political subdivision thereof, and which are graded AA or higher by Moody's Investor's Service, Inc., or Standard and Poor's Corporation 3 years.
- 8. Commercial paper graded A1 or higher by Moody's Investor's Service, Inc., or P1 or higher by Standard and Poor's Corporation 270 days.
- 9. Bankers' acceptances offered by banks rated at least "AA" by Moody's or Standard and Poor's.
- 10. Money market mutual funds whose portfolios consist entirely of instruments specified in subsection 1, 2 and 3 above with net asset value of \$1.00.

#### **Risk Management**

The City undertakes a comprehensive program of risk management including evaluation of potential risks and exposures on an ongoing basis, establishment of employee safety programs and maintenance of appropriate levels of insurance coverage. New OSHA requirements are being met by employee training programs. Employee training continues both with outside institutions and in-house programs.

#### **Awards and Acknowledgements**

Certification of Achievement for Excellence in Financial Reporting

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Homer for its comprehensive annual financial report for the fiscal year ended December 31, 2012.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such a report must satisfy both Generally Accepted Accounting Principles (GAAP) and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report

continues to conform to the Certificate of Achievement Program requirements and we are submitting it to the GFOA.

#### **Acknowledgements**

The preparation of this report could not have been accomplished without the efficient and dedicated services of the entire staff of the City of Homer. We would like to particularly express our appreciation to Laurel Moore, Jo Earls, Jenna deLumeau, Joanne Perret, Lori Sorrows, and Juli Swisher of the Finance Department. We appreciate the contributions of the staff of BDO USA LLP and their professional manner, patience and communication skills in conducting our audit.

We would also like to thank the Mayor and City Council for their interest and support in planning and conducting the financial operations of the City in a responsible manner.

Respectfully submitted,

Zhiyong Li

For its Comprehensive Annual Financial Report for the Fiscal Year Ended

**December 31, 2012** 

Executive Director/CEO

3601 C Street, Suite 600 Anchorage, AK 99503

#### **Independent Auditor's Report**

Honorable Mayor and Members of the City Council City of Homer, Alaska

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of City of Homer, Alaska, as of and for the year ended December 31, 2013 and the related notes to the financial statements, which collectively comprise City of Homer's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of City of Homer, Alaska, as of December 31, 2013, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis and the budgetary comparison schedules be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary Information

Our audit for the year ended December 31, 2013 was conducted for the purpose of forming opinions on the financial statements that collectively comprise City of Homer's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards, the Schedule of State Financial Assistance, and the combining and individual fund financial statements and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Schedule of Expenditures of Federal Awards and the Schedule of State Financial Assistance are required by OMB Circular A-133 and the State of Alaska Audit Guide and Compliance Supplement for State Single Audits, respectively.

The accompanying Schedule of Expenditures of Federal Awards, the Schedule of State Financial Assistance, and the combining and individual fund financial statements and schedules listed in the table of contents, are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements for the year ended December 31, 2013 and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole for the year ended December 31, 2013.

City of Homer's basic financial statements for the year ended December 31, 2012 (not presented herein) were audited by other auditors whose report thereon dated May 7, 2013, expressed unmodified opinions on the respective financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information. The report of the other auditors dated May 7, 2013, stated that the individual fund financial statements and schedules for the year ended December 31, 2012 were subjected to the auditing procedures applied in the audit of the 2012 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those basic financial statements or to those basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America and, in their opinion, were fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended December 31, 2012.

The accompanying introductory and statistical sections, as listed in the table of contents, has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

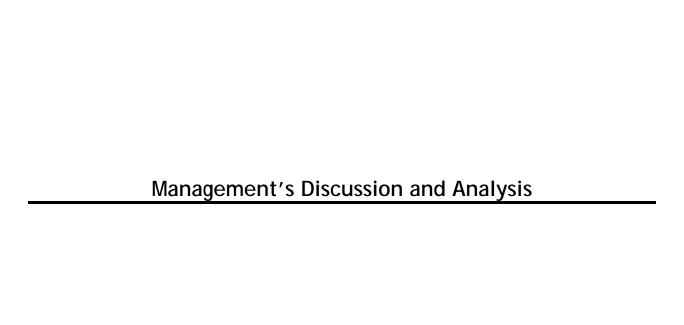

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 19, 2014 on our consideration of City of Homer's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Homer's internal control over financial reporting and compliance.

# Management's Discussion and Analysis December 31, 2013

As management of the City of Homer, we offer readers of these financial statements this narrative overview and analysis of the financial activities of the City of Homer for the fiscal year ended December 31, 2013. Readers are encouraged to read this narrative in conjunction with the transmittal letter at the front of this report and the City's financial statements, which follow this section. All amounts reported in this MD&A, unless otherwise indicated, are expressed in thousands of dollars.

#### Financial Highlights

- The assets of the City of Homer exceeded its liabilities at December 31, 2013, by \$126,170 (Net Position). Of this amount, unrestricted net position of \$9,178 may be used to meet the City's ongoing obligations to citizens and creditors. The City's total net position decreased by \$1,036.
  - As of December 31, 2013, the City's governmental funds reported combined ending fund balances of \$19,769, a decrease of \$638 from the prior year. A combination of factors contributed the decrease. The Capital Projects (including Gas-Line and HART-Road) resulted in a \$1,313 increase to the fund balance; the Utility (Water & Sewer) Special Revenue fund decreased by \$192; the General Fund decrease by \$41; all other Non-Major Funds have an increase of \$217.
- At the end of the current year, the fund balance for the General Fund was \$6,048. Of this amount, \$5,594 was unassigned and available for spending.
- At year-end, the City of Homer's outstanding governmental debt totals \$25,301, an increase of \$7,982 from the previous year due to the issuance of special assessment debt. Business-type debt outstanding was \$4,205 due to the issuance of Harbor bonds.

#### Overview of the Financial Statements

This annual report is comprised of four segments as dictated by Generally Accepted Accounting Principles (GAAP): management's discussion and analysis (this section), the basic financial statements, required supplementary information and other supplementary information. The basic financial statements include two kinds of statements that present different views of the City of Homer.

- Government-wide financial statements provide both long-term and short-term information about the City's overall condition in a summary format.
- Fund financial statements focus on individual parts of Homer's government, reporting the City's operations in more detail than the government-wide statements.
- The governmental funds statements explain how general government services like public safety were financed in the short-term as well as what remains for future spending.
- Proprietary fund statements offer short-term and long-term financial information about the activities the government operates like businesses, such as the port and harbor fund.

The financial statements also include *notes*, which elaborate on some of the information in the financial statements that provide more detailed data. These financial statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. In addition to these required elements, we have included other information such as the City's single audit information, and a statistical section, which, through the use of tables, presents comparative economic and financial data to give users of this report a perspective of the City's financial performance over a number of years.

#### Management's Discussion and Analysis

Illustration A-1 Major Features of City of Homer's Government-wide and Fund Financial Statements													
	Fund Statements												
	Government-wide Statements	Governmental Funds	Proprietary Funds										
Scope	Entire City government	The activities of the City that are not proprietary, such as police, fire, public works, and water/sewer utility	Activities the City operates similar to private businesses; port & harbor										
Required financial statements	*Statement of net position *Statement of activities	*Balance sheet *Statement of revenues, expenditures and changes in fund balance	*Statement of net position *Statement of revenues, expenses and changes in net position *Statement of cash flows										
Accounting basis and measurement focus	Accrual accounting	Modified accrual accounting and current financial resources focus	Accrual accounting										
Type of asset/liability information	All assets and liabilities, both financial and capital, and short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capital, and short-term and long-term										
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during year, regardless of when cash is received or paid										

Illustration A-1 summarizes the major features of the City's financial statements. The remainder of this overview section of the management's discussion and analysis explains the structure and contents of each of the statements.

#### Management's Discussion and Analysis

#### **Government-wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the City of Homer's finances in a manner similar to a private-sector business. These statements can be located on pages 18-19 of this document.

- The statement of net position presents information on all of the City's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may indicate the improvement or deterioration of the City's financial position.
- The statement of activities presents information showing how the City's net position changed during the concluded fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

The government-wide financial statements of the City are divided into two categories:

- Governmental activities These are functions such as public safety and public works services that are principally supported by taxes and intergovernmental revenue.
- Business-type activities These functions are intended to recover all or a significant portion of their costs through user fees and charges. The City's port & harbor system fall within this category.

#### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Homer, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds - Governmental funds are used to account for essentially the same functions reported as governmental activities. However, unlike the government-wide financial statements, governmental fund financial statements focus on short-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's short-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

#### Management's Discussion and Analysis

The City of Homer maintains eighteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for all major funds. Individual fund data for each of the non-major funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for its General Fund and Utility Special Revenue Fund. Budgetary comparison statements are provided for these funds to demonstrate compliance with the budgets.

*Proprietary Funds* - Services for which the City charges customers a fee are generally reported in the proprietary funds. Proprietary funds provide the same type of information as the government-wide statements, only in more detail. The City of Homer maintains two different types of proprietary funds.

- Enterprise funds Are used to report the same functions presented as business-type activities
  in the government-wide financial statements. The City uses on enterprise fund to account for
  its port & harbor system.
- Internal service funds Are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for its self-insured health benefit and accrued leave cash-outs.

#### Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data presented in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 28-51 of this report.

#### Government-wide Financial Analysis

At the close of the 2013 fiscal year, the City's net position (assets exceeding liabilities) totaled \$126,170 (see Table A-1). Of this amount \$108,961, or 86%, represents the City's investment in capital assets (e.g. land, buildings, machinery, and equipment), less any related outstanding debt used to acquire those assets. Because the City of Homer uses these capital assets to provide services to the community, these assets are not available for future spending. The remaining amounts of net position are labeled as restricted or unrestricted.

The restricted balance of \$7,738 in the governmental activities is for debt service and capital projects. The restricted balance of \$294 is for debt service for the business-type activities. The total unrestricted amount totals \$9,178 and is available to meet the City's ongoing obligations to citizens and creditors.

#### Management's Discussion and Analysis

The following schedule provides a summary of the City's net position:

Table A-1 City of Homer's Net Position

As reflected in Table A-2, the City's net position decreased by \$1,036. Expenses exceeded revenues in the governmental activities by \$4,032 and in the business-type activities revenues exceeded expenses by \$2,996. Key elements of the increases and decreases follow:

- Revenues increased, by approximately \$13,848 in 2013 from 2012.
- Sales Taxes reflect an increase from 2012. This breakdown shows the Sales Taxes by fund to receive them. Changes in sales tax dollars from 2013 to 2012 are as follows:

	2013	2012	Increase/ (Decrease)
Fund			
General	\$ 4,873	\$ 4,699	\$ 174
HART - Road	1,096	1,057	39
HART-Trail	122	100	22
Utility(Water & Sewer - HAWSP	1,217	1,175	42
Total	\$ 7,308	\$ 7,031	\$ 277

#### Management's Discussion and Analysis

- Capital grants and contributions increased by \$1,284.
- Property taxes increased by \$226.
- Expenses in the governmental activities increased by \$7,103 for 2013.

#### Financial Analysis of the Governmental Funds

Governmental funds - The focus of the City of Homer's governmental funds is to provide information on short-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending following the end of the fiscal year.

As of December 31, 2013, the City's governmental funds reported combined ending fund balances of \$19,769, a decrease of \$638 compared to balances a year earlier. Of the ending balance, \$3,768, or 19% is unassigned and is available to the City for future spending. Most of the remaining fund balance is restricted for Roads \$6,467, Permanent Fund, \$1,966, or assigned for future capital projects and other purposes \$6,995; and non-spendable in the form of inventory, interfund loan and prepaid items \$573. The increase of total fund balance during the year is attributed to:

- In the General Fund, expenditures and transfers out to other funds totaled \$11,944 compared to revenues and transfers in of \$11,903. The \$41, decrease in the General Fund balance was actually less than the final budgeted net change in fund balance of \$44. This was primarily due to higher than expected property taxes and sales taxes.
- The City Facilities Capital Projects is utilized for the acquisition, construction, or repair of major capital facilities.
- The Streets and Sidewalks (HART) Project Funds are used for the repair and replacement of streets and sidewalks. The voters designated three fourths (¾)% of all sales tax revenue received to go towards the improvement of streets and sidewalks. In 2013, \$1,096 was received from sales taxes and \$26 was received from interest earned on this revenue. Council designated 10% of sales tax revenue earmarked for HART is designated specifically for trails. In 2013, \$122 was put aside for trails.
- In the Non-major funds category, the City maintains five capital project funds that account for the use of intergovernmental grants, dedicated sales tax, and department transfers to support the construction of capital improvements. Financial resources in these funds are intended to eventually be totally expended once the capital improvements have been completed. Included in this category are:
  - The Depreciation Reserves was set up for the replacement of aged equipment and buildings. Funds are transferred annually from individual departments to keep in savings until equipment/buildings are replaced. In 2013 \$20 was transferred into this fund, \$143 was used to replace/purchase new equipment.
  - The Fleet Reserve Account is used for the planned rotation basis of the City's fleet of vehicles. Funds are transferred from individual departments to keep in savings until vehicles are replaced or purchased. In 2013, \$82 was received in this fund as a transfer.

#### Management's Discussion and Analysis

#### **General Fund Budgetary Highlights**

Differences between the original budget and the final amended budget are described below:

• Original expenditures budget was amended to recognize PERS relief for all general fund departments with employees.

#### Capital Asset and Debt Administration

Capital assets - As detailed in Table A-3 below, the City of Homer's investment in capital assets for its governmental and business-type activities as of December 31, 2013, totals \$125,618 (net of accumulated depreciation). This amount represents a \$4,286 increase over the previous year.

Table A-3
City of Homer's Capital Assets (net of depreciation)

	Governmental Activities			Business-typ	e A	Activities	Total		
	2013	2012		2013		2012	2013	2012

<b>Total Capital Assets</b>	\$ 82,728 \$	81,072	\$	42,890	\$	40,260 \$	125,618 \$	121,332	

Major capital asset events during the 2013 year included:

- General Fund:
  - Beluga Slough
  - Boiler Replacement
  - Fishing Lagoon Dredging
  - Airport Front Door Replacement
  - Steamer Unit
  - Vapor Steamer

Construction in progress associated with the General Fund activities include Karen Hornaday Park improvements.

- Utility (Water/Sewer) Special Revenue:
  - Kachemak Dr Phase II water/sewer
    - o Belugas Lift Station
    - o Steamer Unit
    - o Polymer Feed Equipment Replacement
    - o Pressure Reducing Station

#### Management's Discussion and Analysis

Construction in progress associated with the Utility Special Revenue Fund activities include:

- Port & Harbor:
  - Fish Cleaning Table
  - Security Gates and Cameras
  - Cruise Ship Enhancements
  - Fish Dock Corrosion and Access Improvements

Additional information on the City's capital assets can be found in note 5 on pages 38-40 of this report.

General obligation bond payable		-		-	3,735		-	3,735	-
Unamortized bond premium		-		-	470		-	470	-
Total		25,301		17,319	4,205		-	29,506	17,319
Compensated absences		713		752	186		155	899	907
Total Long-Term Debt	\$	26,014	\$	18,071 \$	4,391	\$	155 \$	30,405 \$	18,226

Long-term debt - At the end of the 2013 year, the City of Homer had total debt outstanding of \$29,506 as detailed in Table A-4. This excludes \$899 related to compensated absences.

The notes payables listed under Notes Payable Utility are used to add water and sewer lines and services to areas. Additionally, the new water treatment plant was built utilizing a loan. Loans are received through Alaska Department of Environmental Conservation for 20 year periods at 1.5% interest. Currently seventy five percent of the loans are repaid by the customer through an "LID" (Land Improvement District). Twenty five percent of the loans are paid back by the City of Homer with designated sales tax revenues.

Additional information on the City's long-term debt can be found in note 6 on pages 41-44 of this report.

#### Management's Discussion and Analysis

#### **Economic Factors and Next Year's Budgets and Rates**

The number of vacant and unfunded positions continues to be a problem and the uncertainty about the economy and the loss of revenue associated with the sales tax exemption for unprepared foods casts doubt over future revenues.

Overall, the General Fund is showing an increase of revenues over expenditures of \$837, before transferring funds to reserve accounts. The increase is due in part to maintaining staffing levels at the 2012 level and not providing COLA's to personnel since 2009.

The Water and Sewer Utility Fund remains vulnerable because of the basic structural flaws. The City owns a production and distribution system infrastructure that is very expensive to operate and maintain and has relatively few customers to pay for it. The City has a reliable source of funds to build things and expand the infrastructure (dedicated sales tax) but inadequate funds to maintain it all (user fees). There is intense political pressure to keep fees down even though doing so may not be in the best long term interest of the Fund. The Water/Sewer fund shows an excess of revenue over expenditures in the amount of \$631 before capital outlays of \$702 causing a net decrease in Fund Balance of \$70 before transfers and issuance of long-term debt. The Fund's debt load is significant and will limit opportunities to finance new projects or expansion of the distribution and collection system for the next few years. This is a problem because one of the solutions to the revenue problem is to increase the number of customers.

The Port and Harbor Enterprise Fund is showing an excess in revenues over expenditures of \$807 before depreciation due to an increase in rates which were implemented due to anticipated bonded projects. Additionally, there has been an increase in activity at the docks, ramps and tidelands.

#### **Requests for Information**

This financial report is designed to provide a general overview of the City of Homer's finances for all interested parties. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the following:

# Reconciliation of Governmental Funds Balance Sheet to Statement of Net Position December 31, 2013

Total fund balances for governmental funds		\$ 19,769,364
Total net position reported for governmental activities in the		
Statement of Net Position is different because:		
Capital assets used in governmental activities are not financial		
resources and therefore are not reported in the funds.		
These assets, net of accumulated depreciation consist of:		
Land and land improvements	\$ 10,676,104	
Construction in progress	4,076,617	
Buildings	49,621,871	
Improvements other than buildings	45,042,794	
Machinery and equipment	14,591,185	
Infrastructure	30,770,602	
Accumulated depreciation	(72,051,669)	
T. 16 % 14 .		02 727 504
Total Capital Assets		 82,727,504
Other long-term assets are not available to pay for current period		
expenditures and therefore are deferred in the funds.		
Delinquent property taxes receivable	108,871	
Special assessments not yet due	 5,526,306	
Total Other Long-Term Assets		 5,635,177
Internal service funds are used by the City to charge the cost of		
certain activities, such as insurance, to individual funds. A portion		
of the assets and liabilities of the internal service funds is included		200 E16
in the governmental activities in the Statement of Net Position.		209,516
Long-term liabilities, including notes payable, bonds payable, and accrued		
leave, are not due and payable in the current period and therefore are		
not reported as fund liabilities. These liabilities consist of:		
Accrued interest	(269,433)	
Note payable to Kenai Peninsula Borough	(8,809,368)	
Notes payable	(16,491,952)	
Accrued leave	 (712,719)	
Total Long-Term Liabilities		(26,283,472)

## Reconciliation of the Change in Fund Balances of Governmental Funds to Statement of Activities Year Ended December 31, 2013

Net change in fund balances - total governmental funds	\$ (637,948)
The change in net position reported for governmental activities in the	
Statement of Activities is different because:	
Governmental funds report capital outlays as expenditures.	
However on the Statement of Activities, depreciation expense	
is recognized to allocate the cost of these items over their	
estimated useful lives. This is the amount by which capital outlays	
(\$5,292,296) exceeded depreciation (\$3,636,793).	1,655,503
Revenues in the Statement of Activities that do not provide current	
financial resources are not reported as revenues in the funds.	
This is the amount of the increase in other long-term assets.	2,746,147
Issuance of long-term debt (\$8,836,927) provides current financial	
resources to governmental funds, while the repayment of the	
principal of the long-term debt (\$854,981) consumes current	
financial resources in governmental funds. Neither of these	
transactions has any effect on net position.	(7,981,946)
Accrued interest on long-term debt is not reported in the funds until	
the liability matures. This is the increase in accrued interest payable.	(237,270)
Some expenses reported in the Statement of Activities do not	
require the use of current financial resources and, therefore,	
are not reported as expenditures in governmental funds. This is the	
amount of decrease in accrued leave.	39,151
Internal service funds are used by management to charge the cost	
of health insurance and accrued leave cash-outs to individual funds.	
A portion of the net income of these activities is reported with	
governmental activities.	384,892

See accompanying notes to basic financial statements.

## Notes to Basic Financial Statements December 31, 2013

#### 1. Summary of Significant Accounting Policies

#### Organization and Services Provided

The City of Homer, Alaska was incorporated March 31, 1964 as a first-class city and operates under a Council-Manager form of government. The City provides the full range of municipal services as provided for by Alaska Statute. This includes police and fire protection, ambulance and emergency medical service, water and wastewater service, library, parks and recreation, public improvements, planning and zoning, port and harbor, airport facilities, and general administrative services.

#### Scope and Presentation

The accounting policies of the City conform to accounting principles generally accepted in the United States of America as applicable to governmental units.

#### Reporting Entity

The City has reviewed the standards established by the Governmental Accounting Standards Board (GASB) and determined that the City has no component units.

#### Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the City. In general, the effect of interfund activity has been removed from these statements to minimize the double-counting of internal activities. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely primarily on fees and charges to external parties.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) fees, fines and charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

#### Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

#### Notes to Basic Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City generally considers all revenues except reimbursement grants to be available if they are collected within 60 days after year end. Reimbursement grants are considered available if they are collected within one year of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences are recorded only to the extent they have matured.

Property and sales taxes, charges for services, intergovernmental revenues, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue in the current period. Most other revenue items are considered to be measurable and available only when received by the government.

The City reports the following major funds:

#### Major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be reported in another fund.

The *Utility Special Revenue Fund* accounts for the activities of the water and sewer facility operations including collection and treatment of sewage, and distribution and transmission of water.

The City Facilities Capital Project Fund accounts for building and facilities capital improvements.

The Gas Line Capital Project Fund accounts for all activities related to the construction of the gas line.

The *HART Roads Capital Project Fund* accounts for operating grants and capital improvement projects for streets and sidewalks.

#### Major proprietary fund:

The *Port of Homer Enterprise Fund* accounts for all activities related to the operation of the City's port and harbor.

The City also reports Internal Service Funds which account for the activities relating to the City's self-insured health benefit plan and accrued leave cash-outs. These funds report revenues charged to the other funds based on estimated amounts to cover actual costs of benefits.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are allocated administration fees and charges between the enterprise fund and the various other funds and departments. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

#### Notes to Basic Financial Statements

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. In addition, general revenues include all taxes (including the City's restricted sales taxes), investment income, and State entitlement revenues.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Port of Homer Enterprise Fund are charges to customers for sales and services. Operating expenses for the enterprise fund include the costs of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Revenues reported in the Utility Special Revenue Fund are comprised primarily of user charges for services. However, the fund also receives significant funding from sales tax. Lesser amounts are reflected from grants and local assessments. All revenues reported in the fund are committed to the Utility service, including operations, maintenance, and debt service.

#### Budgets and Budgetary Accounting

The City Council is required to pass an appropriation ordinance for the General Fund and Utility Special Revenue Fund which becomes the expenditure budget for each fund for the fiscal year. The City Council may pass subsequent supplemental appropriations which are added to the expenditure budget. Expenditures may not legally exceed the fund appropriations. The City Manager may transfer amounts between departments within a fund or between cost centers within a department's budget classification. Appropriations on annual budgets lapse at year-end. The City's legally prescribed budgetary basis of accounting is consistent with generally accepted accounting principles and, accordingly, where budgetary data are presented, the budget and actual information conform to the same basis of accounting.

Encumbrance accounting is employed during the year under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, as an extension of formal budgetary integration in the General Fund. Encumbrances outstanding at year-end are reported as appropriate constraints of fund balance if they meet the definitions and criteria described later in these footnotes.

#### Cash and Investments

A central treasury is used to account for all the City's cash and investments to maximize interest income. Investment earnings are allocated to various funds based on average central treasury balances.

For purposes of the statement of cash flows, the City has defined cash and cash equivalents as the demand deposits and all investments maintained in the central treasury, regardless of maturity period, since the various funds use the central treasury essentially as a demand deposit account.

Investments are recorded at fair value.

#### Notes to Basic Financial Statements

#### Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the year are referred to as either "due to / from other funds" (i.e., the current portion of interfund loans) or "advances to / from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to / from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

#### Property Taxes

Property taxes are a lien on the assessed value of taxable property as of January 1. Pursuant to Alaska Statute, Title 29.45.240, the City establishes the mill rate levy by June 15. The City is located within the Kenai Peninsula Borough, which acts as the City's agent in the billing and collection of property taxes. Tax bills for one-half of the taxes are mailed prior to July 1 and are payable on August 15; tax bills for the second half of the taxes are mailed by October 1 and are payable on November 15. City property tax revenues in the fund financial statements are recognized in the fiscal year in which they are collectible and available (collected within sixty days after year-end) to finance expenditures of the fiscal period.

At December 31, the delinquent real and personal taxes not currently available are reflected as deferred inflows of the General Fund.

#### Unbilled Service Revenues

Utility revenues are based on cycle billings rendered monthly to customers. As a result of this cycle billing method, the utilities do not accrue revenues at the end of any fiscal period for services sold but not billed at such date. The Port of Homer bills annual moorage charges in advance, which are presented as unearned revenue at year-end.

#### Inventory

Inventory of the Enterprise Fund is carried at average cost and is charged to expense in accordance with the consumption method of accounting for inventory.

Supplies or materials acquired by governmental fund types are recorded at cost (specific identification) and are charged as expenditures as used in accordance with the consumption method of accounting for inventory. Accordingly, reported inventory for governmental fund types are equally offset by nonspendable fund balance.

#### Prepaid Items

Prepaid items primarily represent costs of insurance and similar services allocated to succeeding periods and rents paid in advance of the period to which they apply. The City's policy is to charge such costs to the period benefited. Accordingly, reported prepaid items for governmental fund types are equally offset by nonspendable fund balance.

#### Notes to Basic Financial Statements

#### Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g. roads and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. In the case of the initial capitalization of infrastructure assets, the City chose to include all such items, regardless of their acquisition date.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Interest capitalized in 2013 was 47,252.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the useful life of the asset are not capitalized.

Property, plant, and equipment of the City is depreciated using the straight line method over the following estimated useful lives:

	Years
Buildings and improvements	30-40
System infrastructure	15-40
Machinery and equipment	5
Infrastructure	20-30

#### Accrued Leave

The City allows employees to accumulate earned but unused personal leave benefits up to a maximum accumulation of 720 hours. All personal leave is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental fund financial statements only if they have matured (e.g. the employee has terminated employment).

#### Long-Term Debt

In the government-wide and the proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium, discount, or deferred loss.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### Notes to Basic Financial Statements

#### Fund Balances

In the fund financial statements, governmental funds report aggregate amounts for five classifications of fund balances based on the constraints imposed on the use of these resources. The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form—prepaid items or inventories; or (b) legally or contractually required to be maintained intact.

The spendable portion of fund balances comprises the remaining four classifications: restricted, committed, assigned, and unassigned.

Restricted fund balance - This classification reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed fund balance - These amounts can only be used for specific purposes pursuant to constraints imposed by formal ordinances of the City Council—the government's highest level of decision making authority. Those committed amounts cannot be used for any other purpose unless the City Council removes the specified use through ordinance. This classification also includes contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned fund balance - This classification reflects the amounts constrained by the City's "intent" to be used for specific purposes, but are neither restricted nor committed. The City Council has the authority to assign amounts to be used for specific purposes. Assigned fund balances include all remaining amounts (except negative balances) that are reported in governmental funds, other than the General Fund, that are not classified as nonspendable and are neither restricted nor committed.

*Unassigned fund balance* - This fund balance is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds.

When both restricted and unrestricted resources are available for use, it is the City's policy to use externally restricted resources first, then unrestricted resources—committed, assigned, and unassigned—in order as needed.

#### Comparative Data

Comparative data for the prior year have been presented in some of the individual fund statements in order to provide an understanding of the changes in the financial position and operations of the City. Certain amounts in the prior year data have been reclassified to conform to the current year's presentation.

#### 2. Cash and Investments

The City of Homer utilizes a central treasury that is available for use by all funds. Each fund's portion of the central treasury is displayed on the balance sheet as "cash and investments" or in the case of "negative cash," is included in "due to other funds."

#### **Notes to Basic Financial Statements**

#### Reconciliation of Deposit and Investment Balances

The following is a reconciliation of the City's deposit and investment balances to the financial statements as of December 31, 2013.

#### December 31, 2013

Bank deposits Investments	\$ 383,227 23,040,339
	\$ 23,423,566
Cash and investments Restricted cash and investments	\$ 15,856,524 7,567,042
	\$ 23,423,566

Restricted cash and investments primarily represent funds set aside for capital projects, including unspent bond proceeds.

#### General Investments

#### *Investment Policy*

The City's investment policy authorizes investment in the following:

- 1. U.S. Treasury securities;
- 2. Other obligations of the U.S. Government, its agencies and instrumentalities;
- 3. Repurchase agreements of acceptable securities listed in (1) or (2) above which meet a margin requirement of 102%;
- 4. Units of the Alaska Municipal League Investment Pool;
- 5. Certificates of deposit;
- 6. Uncollateralized deposits to the extent that the deposits are insured by the FDIC or FSLIC;
- 7. Taxable bonds or notes; graded AA or higher;
- 8. Commercial paper; graded A1 or higher;
- 9. Bankers' acceptances; rated at least AA; and
- 10. Money market mutual funds.

Investments in taxable bonds and notes, commercial paper, or bankers' acceptances must meet a minimum rating as determined by Moody's Investor Services or Standard and Poor's.

#### Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. Aside from the investment policy stated above, the City has no specific policy with respect to interest rate risk.

#### **Notes to Basic Financial Statements**

Investment maturities at December 31, 2013 are as follows:

		Investment Maturities (in Years)							
Investment Type	Fair Value	Less Than 1	1 - 5	5 - 10					
U.S. government agencies:									
U.S. Treasuries	\$ 1,551,579	\$ 1,551,579	\$ -	\$ -					
FHLM	803,847	-	803,847	-					
FNMA	1,596,193		1,596,193						
Total U.S. government agencies	3,951,619	1,551,579	2,400,040	-					
Corporate bonds	258,231	35,637	160,322	62,272					
Foreign bonds	77,649	-	77,649	-					
Pooled investments (AMLIP)	10,535,617_	10,535,617	-						
Total Subject to Interest Rate									
Risk	14,823,116	\$ 12,122,833	\$ 2,638,011	\$ 62,272					
Monoy market	444 029								
Money market	666,928								
Certificate of deposit	7,550,295								
Total Investments	\$ 23,040,339								

#### Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The City's investment policy specifies the types of investments which can be purchased, in order to limit credit risk, as described above. All of the U.S. government agency investments are rated AAA by Standard and Poor's.

Pooled investments are invested with the Alaska Municipal League Investment Pool, Inc. (AMLIP). The AMLIP is an external investment pool which is rated AAAm by Standard and Poor's for credit risk purposes. Alaska Statute 37.23 establishes regulatory oversight of the Pool. The law sets forth numerous requirements regarding authorized investments and reporting. At December 31, 2013, the share value of investments in the AML pool is approximately equal to fair value.

#### **Notes to Basic Financial Statements**

## 3. Accounts Receivable, Valuation Allowances, Deferred Inflows and Unearned Revenues

The City maintains accounts receivable balances of which a portion is reserved as an allowance for doubtful accounts. At December 31, 2013, receivables for the City's individual major funds and nonmajor and internal service funds in the aggregate, including applicable allowances for uncollectible accounts, are as follows:

	G∈	eneral	Utility Special Revenue	City Facilities Capital Project	HART Roads Capital Project	Port o Home	r and Othe	er
Receivables:								
Accounts	\$	- \$	254,492	\$ -	\$ -	\$ 252,575	5 \$	- \$ 507,067
Sales taxes	76	8,292	192,081	-	172,867	-	- 19,21	
Property taxes	11	9,175	-	-	-		-	- 119,175
State and federal grants and loans		_	1,803,926	549,267	_	1,109,21	1	- 3,462,404
Special assessments	34	8,605	5,177,701	-	_	1,107,21	-	- 5,526,306
Other		3,585	-	-	-		- 23,97	
Total receivables	1,41	9,657	7,428,200	549,267	172,867	1,361,786	6 43,18	9 10,974,966
Less allowance for uncollectibles	(8	7,862)	(58,204)	-	-	(40,652	2)	- (186,718)
Net Receivables	\$ 1,33	1,795 \$	7,369,996	\$ 549,267	\$ 172,867	\$ 1,321,134	4 \$ 43,18	9 \$ 10,788,248

At December 31, 2013, the various components of *deferred inflows and unearned revenue* reported in the governmental funds were as follows:

D	ef	<i>er</i>	r	ed	1	'n	fl	0	WS

Delinquent property taxes receivable - General Fund Special assessments not yet due:	\$ 108,871
General Fund Utility Special Revenue Fund	348,605 5,177,701
Total Deferred Inflows	\$ 5,635,177
Unearned Revenue	
Intergovernmental revenue collected in advance Grant drawdowns prior to meeting all eligibility requirements Other unearned revenue	\$ 188,352 7,582 14,563
Total Unearned Revenue	\$ 210,497

#### **Notes to Basic Financial Statements**

#### 4. Interfund Receivables, Payables, and Transfers

A schedule of interfund balances and transfers for the year ended December 31, 2013 follows. Interfund transfers are routinely recorded throughout the year and are typically to fund capital depreciation reserves and other operating subsidies.

#### Due from Other Funds

Due to General Fund from: City Facilities Capital Project Fund Nonmajor governmental funds Internal Service Fund	\$ 1,862,119 86,147 15,140
Total Due from Other Funds	\$ 1,963,406
Transfers	
From General Fund to:	
Internal Service Fund	\$ 584,000
Nonmajor governmental funds	293,930
From Utility Special Revenue Fund to:	
Nonmajor governmental funds	33,482
Internal Service Fund	88,000
From Port of Homer Enterprise Fund to Internal Service Fund	128,000
Total Transfers to Other Funds	\$ 1,127,412

#### Interfund Loan

In 2011 the City underwent an extensive energy audit with the goal of identifying areas for energy savings and efficiencies. Numerous minor upgrades or repairs were conducted in this effort. Most of these costs were funded by fund balances set aside in the prior year along with grant funds. The City approved and recorded an interfund loan from the Energy Revolving Loan Capital Project Fund to the Port of Homer Enterprise Fund in the amount of \$29,294 to fund a portion of the Port related upgrades. The Port will repay the loan in \$3,291 annual installments over nine years. The loan had a balance of \$22,712 as of December 31, 2013.

The remainder of this page left blank intentionally.

	\$	3,735,000	\$	2,024,675	\$	5,759,675		

In 2013, the City issued \$3,375,000 in general obligation (GO) bonds to provide funds for Harbor improvements. GO bonds are direct obligations and pledge the full faith and credit of the City.

In 2013, the City entered into a loan agreement with the Kenai Peninsula Borough to borrow up to \$12,700,000 for the design and construction of natural gas distribution improvements in the City. At December 31, 2013, the City had drawn \$8,809,368 on the loan.

Concurrent with the issuance of the loan with the Borough, the City issued a \$12,700,000 natural gas distribution special assessment bond. The bond proceeds are to be used for the design and construction of natural gas distribution improvements in the City. After completion of the project, the City will establish an assessment district. This bond will be repaid from amounts to be levied against the property owners benefited by this construction in the assessment district. Those amounts, including interest, are 100 percent pledged to pay the scheduled principal and interest payments on the special assessment bonds. In the event that a deficiency exists because of unpaid or delinquent special assessments at the time a debt service payment is due, the government must provide resources to cover the deficiency until other resources, for example, foreclosure proceeds, are received.

## **Notes to Basic Financial Statements**

#### 7. Fund Balances

Fund balances, reported for the major funds and the nonmajor funds in the aggregate on the governmental funds balance sheet are subject to the following constraints:

				City	0 11	HART

Leave Cash-out In	tern	al Šervice F	und				1!	5,140	

Expenditures in the Utility Special Revenue Fund exceed appropriations by \$840,976.

#### Notes to Basic Financial Statements

#### 8. Accounting for Health Self-Insurance

The City provides health insurance on a self-insured basis up to \$90,000 each occurrence or \$2,077,184 in aggregate for all medical claims during the year. Coverage in excess of these amounts is insured by a private carrier up to lifetime claims of \$1,000,000 per each individual.

The City contracts with a third-party administrator for health claims servicing. The City charges each department a premium based on the employees and their selected coverage. This premium is based on actual claims paid by the City. An equal amount is recorded as revenue by the Risk Management Internal Service Fund which is then responsible for paying all claims. The City accrues a liability for claims incurred but not reported at year-end.

A schedule of the changes in the claims liability for the years ended December 31, 2013 and 2012 follows:

	Balance at Beginning of Year	Claims Expense	Claims Paid	Balance at End of Year
2013 Health Insurance	\$ 128,435	\$ 1,978,754	\$ 1,856,082	\$ 251,107
2012 Health Insurance	\$ 93,812	\$ 1,780,281	\$ 1,745,658	\$ 128,435

#### 9. Risk Management

The City is exposed to various risks of loss including (a) damage to and loss of buildings and contents, (b) employee torts, (c) professional liability; i.e., errors and omissions, (d) workers' compensation; i.e., employee injuries, and (e) medical insurance costs of employees.

The City is a member of the Alaska Municipal League Joint Insurance Association (JIA), a governmental insurance pool established by the Alaska Municipal League. The JIA provides the City coverage for property, including building and contents, automobiles, mobile equipment and data processing equipment; casualty, including general liability, and public officials, law enforcement professional liability, auto liability and employee benefit liability; and workers' compensation, including employer's liability. In addition, commercial insurance policies are purchased that transfer the risk of loss, except for relatively low deductibles for marina keepers legal liability, and underground tank liability. The City has no coverage for potential losses from environmental damages.

The JIA is a public entity risk pool organized to share risks among its members. The Association's bylaws provide for the assessment of supplemental contributions from members in the event that losses and expenses for any coverage year exceed the annual contributions and income earned on such contributions for the year. Such supplemental contributions shall be based upon each member's deposit contribution in comparison to the aggregate deposit contributions of all members. The Association made no supplemental assessments during the year ended December 31, 2013.

The JIA provides loss control services and conducts periodic inspections to ensure safe operations. The Finance Director coordinates risk management activities with the other City Directors and City Manager. The General Fund fund balance is sufficient to meet potential losses related to the JIA basic core coverage and coverage deductibles. The amount of settlements for the past three years did not materially exceed the City's insurance coverage.

#### Notes to Basic Financial Statements

#### 10. Defined Benefit Pension Plan

The City participates in the Public Employees' Retirement System (PERS). PERS is a cost-sharing multiple employer plan which covers eligible State and local government employees, other than teachers. The Plan was established and is administered by the State of Alaska Department of Administration to provide pension, postemployment healthcare, death, and disability benefits. Benefit and contribution provisions are established by State law and may be amended only by the State Legislature.

The Plan is included in a comprehensive annual financial report that includes financial statements and other required supplemental information. The report is available at the following address:

Department of Administration Division of Retirement and Benefits P.O. Box 110203 Juneau, Alaska 99811-0203

#### Conversion to Cost Sharing

In April 2008, the Alaska Legislature passed legislation which converted the existing Public Employees Retirement System (PERS) from an agent-multiple employer plan to a cost-sharing plan with an effective date of July 1, 2008. Under the cost-sharing arrangement, the State of Alaska Division of Retirement and Benefits no longer tracks individual employer assets and liabilities. Rather, all plan costs and past service liabilities are shared among all participating employers.

That same year, the State of Alaska passed additional legislation which statutorily capped the employer contribution, established a state funded "on-behalf" contribution, and required that employer contributions be calculated against all PERS eligible wages, including wages attributable to the defined contribution plan described later in these footnotes.

#### Employee Contribution Rates

Regular employees are required to contribute 6.75% of their annual covered salary (2.97% for pension and 3.78% for healthcare). Police and firefighters are required to contribute 7.5% of their annual covered salary (3.29% for pension and 4.21% for healthcare).

#### Employer and Other Contribution Rates

There are three contribution rates associated with the pension and healthcare contributions and related liabilities:

Contractual Rate: This is the required funding rate for participating employers. The contractual rate is statutorily capped at 22% of eligible wages, subject to a wage floor, and other termination events. This 22% rate includes all PERS participating wages, including those wages attributable to employees in the defined contribution plan.

ARM Board Adopted Rate: This is the rate formally adopted by the Alaska Retirement Management Board. This rate is actuarially determined to calculate annual funding requirements of the Plan, without regard to the statutory rate cap. There are no constraints or restrictions on the actuarial cost method or other assumptions used in this valuation, other than those established and agreed to by the ARM Board.

#### Notes to Basic Financial Statements

Current legislation provides that the State of Alaska will contribute the difference between the ARM Board adopted rate and the contractual (statutory) rate. These additional contributions are recognized by each employer as an on-behalf payment and are reflected as revenue and expense/expenditures within the financial statements.

GASB 43 Rate: This is the rate used to determine the long-term pension and healthcare liability for plan accounting purposes in accordance with generally accepted accounting principles as established by GASB. Certain actuarial methods and assumptions for this rate calculation are mandated by GASB. For State fiscal year FY14 (six months ended December 2013), the rate uses an 8.00% pension discount rate and a 6.88% healthcare discount rate. Additionally, the GASB 43 rate disregards all future Medicare Part D payments.

The GASB 43 rate differs significantly from the ARM Board adopted rate as a direct result of differences in the actuarial valuation methodology and assumptions.

Contribution rates for the six months ended June 30, 2013 were determined as part of the June 30, 2010 actuarial valuation. Rates for the six months ended December 31, 2013 (State FY14) were determined in the June 30, 2011 valuation.

		ARM Board			
	Contractual	Adopted	GASB 43		
January to June 2013	Rate	Rate	Rate		
Pension	9.67%	15.75%	24.95%		
Postemployment healthcare	12.33%	20.09%	39.93%		
Total Contribution Rate	22.00%	35.84%	64.88%		
July to December 2013					
Pension	10.64%	18.38%	24.95%		
Postemployment healthcare	11.36%	17.30%	39.93%		
Total Contribution Rate	22.00%	35.68%	64.88%		

<sup>\*</sup> Note the State of Alaska will be implementing new GASB rules for pension accounting beginning in FY15. These new rules will change the accounting and disclosure requirements at the plan level.

#### Annual Pension and Postemployment Healthcare Cost

The City is required to contribute 22% of covered payroll, subject to a wage floor. In addition, the State of Alaska is required to contribute approximately 13.84% and 13.68% of covered payroll for each six month period noted above. In accordance with the provisions of GASB Statement Number 24, the City has recorded the State contribution in the amount of \$915,801 as revenue and expense/expenditures in these financial statements. However, because the City is not statutorily obligated for these payments, this amount is excluded from the annual pension and OPEB cost required by the City, as reported below:

#### Notes to Basic Financial Statements

Year Ended December 31,	Annual	Annual	Total Benefit	City	% of TBC
	Pension Cost	OPEB Cost	Cost (TBC)	Contributions	Contributed
2013	\$ 606,589	\$ 571,025	\$ 1,177,614	\$ 1,177,614	100%
2012	526,358	671,272	1,197,630	1,197,630	100%
2011	550,105	604,927	1,155,032	1,155,032	100%

#### 11. Defined Contribution Pension Plan

Employees hired after July 1, 2006 participate in PERS Tier IV, a defined contribution plan. The Plan is administered by the State of Alaska, Department of Administration. Benefit and contribution provisions are established by State law and may be amended only by the State Legislature. The Alaska Retirement Management Board may also amend contribution requirements. Included in the Plan are individual pension accounts, retiree medical insurance plan and a separate Health Reimbursement Arrangement account that will help retired members pay medical premiums and other eligible medical expenses not covered by the medical plan.

#### Employee Contribution Rates

Employees are required to contribute 8.0% of their annual covered salary. This amount goes directly to the individual's account.

#### **Employer Contribution Rates**

The City is required to contribute the following amounts based on covered salary:

		Police/Fire		
January to June 2013	Other Tier IV	Tier IV		
		_		
Individual account	5.00%	5.00%		
Retiree medical plan	0.48%	0.48%		
Occupational death and disability benefits	0.14%	0.99%		
Contribution Rate	5.62%	6.47%		
July to December 2013				
Individual account	5.00%	5.00%		
Retiree medical plan	0.48%	0.48%		
Occupational death and disability benefits	0.20%	1.14%		
Contribution Rate	5.68%	6.62%		

In addition, the employer must contribute to the Health Reimbursement Arrangement. AS 39.30.370 establishes this contribution amount as "three percent of the average annual employee compensation of *all employees of all employers* in the plan". As of July 1, 2013, for actual remittance, this amount is calculated as a flat rate for each full time or part-time employee per pay period and approximates \$1,897 per year for each full-time employee, and \$1.22 per hour for part-time employees.

#### Notes to Basic Financial Statements

Finally, the total employer contribution must equal 22% of covered payroll. After subtracting the defined contribution (DC) rates and the HRA contribution, any residual amount of the 22% will be deposited into the defined benefit (DB) plan. Known as the DBUL payment, this amount is intended to mitigate against the declining payroll base that resulted from the creation of the DC plan.

Employees are immediately vested in their own contributions and vest 25% per year in employer contributions. The City and employee contributions to PERS including the HRA contribution for the year ended December 31, 2013 were \$208,337 and \$179,098, respectively.

#### 12. Deferred Compensation Plan

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The deferred compensation plan permits all employees to defer a portion of their salary. The deferred compensation is not available for distribution to employees until termination, retirement, death or unforeseeable emergency. Internal Revenue Code provisions require that all assets and income of the plan be held in trust for the exclusive benefit of participants and their beneficiaries.

#### 13. Contingencies and Subsequent Events

The City is involved in various claims and pending litigation as part of the normal course of its activities. In the opinion of management, the disposition of these matters is not expected to have a material adverse effect on the City's financial statements.

#### Grants

Amounts received or receivable from grantors are subject to audit and adjustment by the grantor agencies. Any disallowed claims, including amounts already collected, would become a liability of the General Fund or other applicable fund.

#### 14. Designated Sales Tax

City of Homer sales tax is designated for the following purposes:

Water, sewer, and related debt service	0.75%
Road and trail projects	0.75%
General Fund - undesignated	3.00%
Kenai Peninsula Borough	3.00%
Total Sales Tax Percentage	7.50%

Effective January 1, 2009, Ordinance 08-32(s)(A-2) exempts sales tax on non-prepared foods from September 1 through May 31 annually.

#### Notes to Basic Financial Statements

#### 15. Homer Natural Gasline Project

In March 2013, the City Council approved a Contribution in Aid of Construction Agreement (CIAC), Ordinance 13-03, between the City of Homer and Enstar Natural Gas Company for construction and improvements within the Homer natural gas distribution system. In connection with the project, a special assessment district was authorized. The City's share of the Homer Natural Gasline project is being financed through a \$12.7 million loan obtained from Kenai Peninsula Borough. Once the project is completed, local assessments will be issued and allocated among the individual benefiting property owners. These assessment revenues will be dedicated to repayment of the loan.

#### 16. New Accounting Pronouncements

The Governmental Accounting Standards Board has passed several new accounting standards with upcoming implementation dates. Management has not fully evaluated the potential effects of these statements, but believes that that GASB Statement 68 will result in the biggest reporting change. Actual impacts have not yet been determined:

GASB 67 - Financial Reporting for Pension Plans - Effective for year-end December 31, 2014 - This statement contains certain revisions to prior GASB statements on the topic of improving financial reporting by state and local governmental pension plans.

GASB 68 - Accounting and Financial Reporting for Pensions - Effective for year-end December 31, 2015 - This statement contains certain revisions to prior GASB statements on the topics of Net Pension Liability and Pension Expense.

GASB 69 - Government Combinations and Disposals of Government Operations - Effective for yearend December 31, 2014 - This statement contains certain disclosures to be made about government combinations and disposals of government operations to enable financial statement users to evaluate the nature and effects of these transactions.

GASB 70 - Accounting and Financial Reporting for Nonexchange Financial Guarantees - Effective for year-end December 31, 2014 - This statement contains reporting requirements when a government financially guarantees the obligations of another government, non-profit, or private entity without receiving equal value in exchange.

GASB 71 - Pension Transition for Contributions Made Subsequent to the Measurement Date - Effective for year-end December 31, 2015 - This statement is a companion to GASB Statement 68 and clarifies treatment of contributions made by a contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability.

### Nonmajor Governmental Funds

#### SPECIAL REVENUE FUNDS

A Special Revenue Fund is established to finance particular activities and is created from proceeds of specific revenue sources that are restricted or committed for specific purposes.

**Library Donations** - This fund accounts for donations made to the library that have been earmarked for supplies.

Fire Department Donations - This fund accounts for donations made to the fire department that have been earmarked for supplies.

Retainage Reimbursements - This fund accounts for deposits customers have provided for specific projects until their completion.

Community Schools - This fund accounts for donations to be used for community schools.

**Sustainability -** This fund accounts for donations for sustainable global warming.

**Noncapital Projects** - This fund accounts for projects and grant-related activities that are not capitalized.

**Permanent Fund -** This fund accounts for the payment received as a result of the Exxon Valdez oil spill settlement.

**PERS Funding -** This fund accounts for funds set aside for future PERS obligation.

#### **CAPITAL PROJECT FUNDS**

Capital Project Funds are established to account for the financial resources expended to acquire or construct major capital assets of a relatively permanent nature. Such financial resources include grants, contributions, bond proceeds, and operating transfers from other funds.

Capital Project Funds provide a formal mechanism to ensure that revenues dedicated to a certain project are used only for that project and enable the City administration to report to grantors of Capital Project Fund revenue that their requirements regarding the use of the revenues are fully satisfied.

**HART Trails** - This fund accounts for improvements to City trails. It is funded by 10% of HAWSP sales tax designated specifically for City trails.

**Depreciation Reserves** - This fund accounts for monies set aside each year from the General Fund to be used for the maintenance of City buildings and the purchase of General Fund equipment.

Land Reserve - This fund accounts for the accumulation of capital to purchase land.

**Energy Revolving Loan -** This fund accounts for forward funding of energy efficiency improvement projects with corpus to be reinstated through future repayments.

Fleet Reserve Allocation - This fund accounts for the accumulation of capital to purchase vehicles.

#### **General Fund**

The General Fund accounts for the financial operations of the City of Homer which are not accounted for in any other fund. Principal sources of revenues are sales taxes, property taxes, charges for services, and intergovernmental revenues. Primary expenditures in the General Fund are for general government, public safety, and public works.

#### Notes:

In 2010, the City converted its Water and Sewer Utility from an Enterprise Fund to a Special Revenue Fund. Prior years presentation has not been reclassified or restated to reflect this change.

In 2012 the City implemented GASB 63. Net assets have been retitled.

The City implemented GASB 34 in 2003. In 2010, the City converted its Water and Sewer Utility from an Enterprise Fund to a Special Revenue Fund. Prior years presentation has not

been reclassified or restated to reflect this change.

In 2012 the City implemented GASB 63. Net assets have been retitled.

Special items - 2008 - Write off NPO, 2013 - Construction of gas pipline on-behalf of third parties

# Governmental Activities Tax Revenues by Source Last Ten Fiscal Years

Notes: In 1998, the Kenai Peninsula Borough adopted Borough

Ordinance 97-73 that created a flat tax for watercraft, creating

\$100,000 personal property tax exemption, and increasing

the motor vehicle tax.

# Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

Honorable Mayor and Members of the City Council City of Homer, Alaska

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Homer, as of and for the year ended December 31, 2013, and the related notes to the financial statements, which collectively comprise City of Homer's basic financial statements, and have issued our report thereon dated May 19, 2014.

### Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered City of Homer's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Homer's internal control. Accordingly, we do not express an opinion on the effectiveness of City of Homer's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency or a combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify a certain deficiency in internal control that we consider to be a significant deficiency. (Item 2013-001)

### Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of Homer's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### City of Homer's Response to Findings

City of Homer's response to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. City of Homer's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of City of Homer's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Homer's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# Independent Auditor's Report on Compliance For Each Major Federal Program and Report on Internal Control Over Compliance Required by OMB Circular A-133

Honorable Mayor and Members of the City Council City of Homer, Alaska

#### Report on Compliance for Each Major Federal Program

We have audited City of Homer's (the City's) compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended December 31, 2013. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of City of Homer's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

#### Opinion on Each Major Federal Program

In our opinion, City of Homer complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2013.

### Report on Internal Control Over Compliance

Management of City of Homer is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered City of Homer's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Independent Auditor's Report on Compliance For Each Major State Program and Report on Internal Control Over Compliance Required by the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits* 

Honorable Mayor and Members of the City Council City of Homer, Alaska

### Report on Compliance for Each Major State Program

We have audited City of Homer's (the City's) compliance with the types of compliance requirements described in the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits* that could have a direct and material effect on each of the City's major state programs for the year ended December 31, 2013. The City's major state programs are identified in the accompanying schedule of state financial assistance.

### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its state programs.

#### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of City of Homer's major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*. Those standards and the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However, our audit does not provide a legal determination of the City's compliance.

### Opinion on Each Major State Program

In our opinion, City of Homer, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended December 31, 2013.

### Report on Internal Control over Compliance

Management of City of Homer is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the *State of Alaska Audit Guide and Compliance Supplement for State Single Audits*. Accordingly, this report is not suitable for any other purpose.

### Schedule of Findings and Questioned Costs Year Ended December 31, 2013

### Section II - Financial Statement Findings Required to be Reported in Accordance with Government Auditing Standards

Finding 2013-001 Significant Deficiency - Financial Reporting

Criteria: Financial reporting should be done in accordance with the financial

reporting framework of U.S. Generally Accepted Accounting Principles

(GAAP) and in accordance with pronouncements issued by GASB.

Condition: We identified a variety of instances where U.S. GAAP was not being

followed and journal entries were identified that needed to be made to

correct the accounts to be reported fairly under U.S. GAAP.

Context: We identified 25 journal entries that needed to be booked to correct the

accounts. The journal entries identified reduced change in net position by

\$65,821.

Effect: The possible effect on future financial reporting is that numbers reported

to the City Council might be materially misstated and not truly represent

the activity of the governmental entity in accordance with U.S. GAAP.

Cause: Lack of review performed throughout year as the governmental entity did

not have a finance director for more than half of the year.

Recommendation: We recommend that the client perform a monthly review of accounts to

notice if anything appears unusual or not in accordance with the financial

reporting framework.

Views of Responsible Officials and Planned

Corrective Actions: See the corrective action plan.

### **Federal Award Findings and Questioned Costs**

None noted.

### State of Alaska Award Findings and Questioned Costs

None noted.

### Summary Schedule of Prior Audit Findings Year Ended December 31, 2013

### **Financial Statement Findings**

There were no prior year audit findings.

### **Federal Award Findings**

Finding 12-01 Allowable Costs - Internal Control & Noncompliance

Environmental Protection Agency Passed through State of Alaska Clean Water Loan Program CFDA number 66.458

Condition: Drinking Water Program eligible costs were erroneously charged to the

Clean Water Program.

Status: This finding has been resolved

State of Alaska Award Findings

There were no prior year audit findings.

# Corrective Action Plan Year Ended December 31, 2013

Persons Responsible: Zhiyong Li, Finance Director

Laurie Moore, Accounting Supervisor

907-235-3140

### Financial Statement Findings

Finding 2013-001 Significant Deficiency - Financial Reporting

Corrective Action: The monthly review process was interrupted by personnel turnover during

most of the fiscal year of 2013. As part of the corrective action plan, the Finance Director and the Accounting Supervisor have resumed the monthly

review process.

**Expected Completion: In progress**
