Independent Auditor's Report

Honorable Mayor and Members of the City Council City of Homer, Alaska

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Homer Alaska (the City), as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Homer Alaska, as of December 31, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 6 through 16, the budgetary comparison schedules on pages 66 and 67, and the schedules of the City's information on the net pension and OPEB liability (assets) and City contributions to the pension and OPEB plans on pages 68 through 71, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Homer's basic financial statements. The accompanying combining and individual fund financial statements and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules listed in the table of contents are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

We also previously audited, in accordance with auditing standards generally accepted in the United States of America, the basic financial statements of the City of Homer as of and for the year ended December 31, 2018 (not presented herein), and have issued our report thereon dated October 10, 2019, which contained unmodified opinions on the respective financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information. The individual fund financial statements and schedules for the year ended December 31, 2018 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2018 financial statements. The individual fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of the 2018 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those financial statements or to those financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended December 31, 2018.

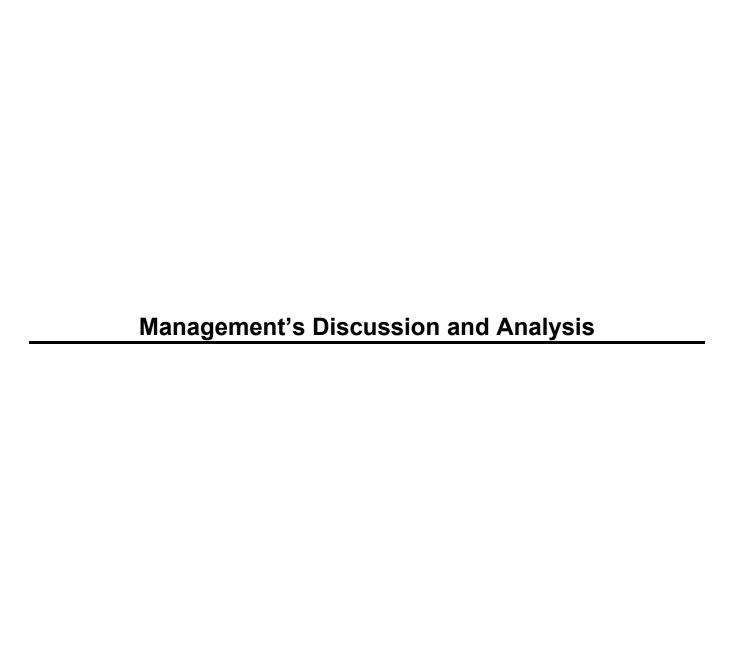

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated December 7, 2020 on our consideration of the City of Homer's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Homer's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering City of Homer's internal control over financial reporting and compliance.

Management's Discussion and Analysis December 31, 2019

The City of Homer management offers readers financial statements, narrative overview, and analysis of the financial activities of the City of Homer for the fiscal year ending December 31, 2019. Readers are encouraged to read this narrative in conjunction with the City's financial statements, which follow this *section*.

Financial Highlights

• The assets and deferred outflows of resources of the City of Homer exceeded its liabilities and deferred inflows of resources on December 31, 2019, by \$139,533,734 (Net Position). Of this amount, unrestricted net position of \$13,889,064 may be used to meet the City's ongoing obligations to citizens and creditors. The City's total net position increased by \$4,923,831 from current year activity. For the fiscal year, governmental type activities increased by \$5,678,608 and business type activities decreased by \$754,777.

As of December 31, 2019, the City's governmental funds reported combined ending fund balances of \$30,163,426, an increase of \$6,775,719 from the prior year. A combination of factors contributed to the increase, but primarily due to an increase in property taxes and an overall decrease in spending. The Gas-Line Capital Project fund resulted in an increase of \$311,474 to the fund balance; The HART-Road Capital Project fund resulted in a decrease of \$132,301 to the fund balance; the Utility (Water & Sewer) Special Revenue fund balance increased by \$1,916,808; the City Facilities fund balance increased by \$1,955,704; the General fund balance increased by \$2,896,506; all other Non-Major fund balances have a net decrease of \$172,472.

- At the end of the current year, the fund balance for the General fund was \$10,051,587. Of this amount, \$9,522,558 was unassigned and available for future use.
- At year-end, the City of Homer's outstanding governmental debt totaled \$27,298,032. Business-type debt outstanding was \$5,457,978. These figures include both external debt (bonds, loans, capital leases) as well as accrued leave and net pension and OPEB liability.

Overview of the Financial Statements

This annual report is comprised of four segments as dictated by Generally Accepted Accounting Principles (GAAP): Management's Discussion and Analysis (this section), the basic financial statements, required supplementary information, and other supplementary information. The basic financial statements include two kinds of statements that present different views of the City of Homer.

- Government-wide financial statements provide both long-term and short-term information about the City's overall condition in a summary format.
- Fund financial statements focus on individual parts of Homer's government, reporting the City's operations in more detail than the government-wide statements.
- The governmental funds statements explain how general government services like public safety were financed in the short-term as well as what remains for future spending.

Management's Discussion and Analysis December 31, 2019

 Proprietary fund statements offer short-term and long-term financial information about the activities the government operates like businesses, such as the port and harbor fund.

The financial statements also include *notes*, which elaborate on some of the information in the basic financial statements that provide more detailed data. The notes to the basic financial statements are followed by a section of required supplementary information that includes budgetary comparison schedules and net pension, and OPEB schedules. In addition to these required elements, we have included other supplementary information such as the individual and combining fund financial statements and schedules.

| Type of inflow/outflow information | All revenues and expenses during year, regardless of when cash is received or paid | Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter | All revenues and expenses during year, regardless of when cash is received or paid | | | | | | | |

Management's Discussion and Analysis December 31, 2019

Illustration A-1 summarizes the major features of the City's financial statements. The remainder of this overview section of the management's discussion and analysis explains the structure and contents of each of the statements.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the City of Homer's finances in a manner similar to a private-sector business. These statements can be located as listed in the table of contents of this document.

- The statement of net position presents information on all of the City's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may indicate the improvement or deterioration of the City's financial position.
- The statement of activities presents information showing how the City's net position changed during the concluded fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

The government-wide financial statements of the City are divided into two categories:

- Governmental activities These are functions such as public safety and public works services
 that are principally supported by taxes and intergovernmental revenue.
- Business-type activities These functions are intended to recover all or a significant portion
 of their costs through user fees and charges. The City's port & harbor system falls within this
 category.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Homer, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds - Governmental funds are used to account for essentially the same functions reported as governmental activities. However, unlike the government-wide financial statements, governmental fund financial statements focus on short-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's short-term financing requirements.

Management's Discussion and Analysis December 31, 2019

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of Homer maintains twenty two individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for all major funds. Individual fund data for each of the non-major funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for its General Fund and Utility Special Revenue Fund. Budgetary comparison statements are provided for these funds to demonstrate compliance with the budgets.

Proprietary Funds - Services for which the City charges customers a fee are generally reported in the proprietary funds. Proprietary funds provide the same type of information as the government-wide statements, only in more detail. The City of Homer maintains two different types of proprietary funds.

- Enterprise funds Are used to report the same functions presented as business-type
 activities in the government-wide financial statements. The City uses one enterprise fund to
 account for its port & harbor system.
- Internal service funds Are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for its health benefits and accrued leave cash-outs.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data presented in the government-wide and fund financial statements. The notes to the financial statements can be found as listed in the table of contents of this report. Please note, the following financial analysis is reported in thousands.

Government-wide Financial Analysis

At the close of the 2019 fiscal year, the City's net position (assets exceeding liabilities) totaled \$139,534 (see Table A-1). Of this amount, \$118,199 or 85%, represents the City's investment in capital assets (e.g. land, buildings, machinery, and equipment), less any related outstanding debt used to acquire those assets. Because the City of Homer uses these capital assets to provide services to the community, these assets are not available for future spending. The remaining amounts of net position are labeled as restricted or unrestricted.

Management's Discussion and Analysis December 31, 2019

The restricted balance of \$7,446 in the governmental activities is for capital projects and bond reserve. The total unrestricted amount totals \$13,889 and is available to meet the City's ongoing obligations to citizens and creditors.

The following schedule provides a summary of the City's net position:

| | Governm Activiti | | Business Activiti | <i>y</i> . | Total | | | |
|---|---------------------|-----------------|----------------------|-------------|---------------|---------|--|--|
| | 2019 | 2018 | 2019 | 2018 | 2019 | 2018 | | |
| Transfers Special item | \$ 1 \$ (101) | (463) \$ (3) | (1)\$ | 463 \$ - | - \$ (101) | - (3) | | |
| Increase (Decrease) In Net Position | 5,678 | 932 | (754) | (242) | 4,924 | 690 | | |
| Net Position, beginning | 87,531 | 88,724 | 47,079 | 47,763 | 134,610 | 136,487 | | |
| Net Position, ending | \$ 93,209 \$ | 87,531 \$ | 46,325 \$ | 47,079 \$ | 139,534 \$ | 134,610 | | |

The City's net position increased by \$4,924. Revenues exceeded expenses in the governmental activities by \$5,778 and in the business-type activities expenses exceeded revenues by \$754. Key elements of the increases and decreases follow:

- Revenues in the governmental activities increased by \$4,429 in 2019 from 2018. This is mainly due to an increase of \$2,667, \$772, and \$690 in charges for services, capital grants and contributions, and other revenues, respectively.
- Expenses in the governmental activities increased by \$49 in 2019 from 2018. This is mainly due to a decrease of \$159 in public safety being offset by an increase of \$227 in public works.
- Revenues in the business-type activities decreased by \$125 in 2019 from 2018. This is mainly due to a decrease in capital grants and contributions of \$360 being offset by an increase of \$205 in charges for services.
- Expenses in the business-type activities also decreased by \$76 in 2019 from 2018.
- Sales Taxes reflect an increase from 2018. This breakdown shows the Sales Taxes by fund to receive them. Changes in sales tax dollars from 2019 to 2018 are as follows:

| Sales Taxes | 2019 | 2018 | Change | | |
|--|----------------------|----------------------|--------|--------------|--|
| Fund General Utility (Water & Sewer – HAWSP) | \$ 8,741 1,583 | \$ 6,413 1,244 | \$ | 2,328 339 | |
| Total | \$ 10,324 | \$ 7,657 | \$ | 2,667 | |

Management's Discussion and Analysis December 31, 2019

Financial Analysis of the Governmental Funds

Governmental funds - The focus of the City of Homer's governmental funds is to provide information on short-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending following the end of the fiscal year.

As of December 31, 2019, the City's governmental funds reported combined ending fund balances of \$30,163, an increase of \$6,776 compared to balances a year earlier. Of the ending balance, \$8,536, or 28% is unassigned. Most of the remaining fund balance is restricted for roads and police station construction \$9,099, committed for police station construction \$1,210, or assigned for future capital projects and other purposes \$11,127; and non-spendable in the form of inventory, inter-fund loan and prepaid items \$784. The increase of total fund balance during the year is attributed to:

- General Fund net change in fund balance of \$2,897
- Utility Special Revenue Fund's fund balance increased by \$1,917. This is mainly due to increase in sales taxes of \$339, intergovernmental revenues of \$592, and net transfers in of \$780.
- Issuance of bonds for construction of city facilities of \$4,804.

Government Funds (General and Utility Special Revenue) Budgetary Highlights

- General Fund Revenue: Final Budget and Original Budget excluded PERS relief revenue from the State of Alaska.
- General Fund Expenditures: Final Budget was above Original Budget by \$60 and actual expenditures were below Final Budget by \$194.
- Utility Fund Expenditures and Revenue: Final Operating Budget and original budget excluded intergovernmental and special assessments revenues and their corresponding expenditures. The net change in fund balance exceeded the final budget by \$1,663.

Capital Asset and Debt Administration

Capital assets - As detailed in Table A-3 below, the City of Homer's investment in capital assets for its governmental and business-type activities as of December 31, 2019, totals \$133,344 (net of accumulated depreciation). This amount represents a \$213 decrease over the previous year.

| Total Long-term Debt | \$ 27,298 \$ | 25,329 | \$ | 5,458 | \$ | 5,929 | \$ | 32,756 | \$ | 31,258 |

Long-term liabilities - At the end of the 2019 year, the City of Homer had total debt outstanding of \$19,818 as detailed in Table A-4. This excludes \$11,670 related to net pension liability, \$306 related to the net OPEB liability, and \$962 related to the compensated absences.

The notes payable listed under Notes Payable Utility are used to add water and sewer lines and services to areas. Additionally, the new water treatment plant was built utilizing a loan. Loans are received through Alaska Department of Environmental Conservation for 20-year periods at 1.5% interest. The majority of the loans are repaid by the property owner through "SAD" (Special Assessment District). The remaining portion of the loans are paid back by the City of Homer with designated sales tax revenues.

Management's Discussion and Analysis December 31, 2019

Additional information on the City's Long-term liabilities can be found in Note 6 to the basic financial statements.

Economic Factors and Next Year's Budgets and Rates

The State's fiscal situation remains uncertain. The novel coronavirus pandemic has caused increased uncertainty in the City of Homer's future revenue and expenditure activities. However, the City of Homer is expected to receive approximately \$7,899 in federal funding from the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) which is expected to be utilized during 2020 and 2021.

The Water and Sewer Utility Fund remains vulnerable because of a basic fundamental flaw. The City owns an expensive and expansive treatment, collection and distribution infrastructure and very few customers to pay for maintenance and operations. Priority should be placed on infill and hooking up customers where the infrastructure has already been installed. It is debatable if expanding the system into new, less densely populated areas is a net drain on the system as with those new customers comes increased miles of pipe to maintain.

Requests for Information

This financial report is designed to provide a general overview of the City of Homer's finances for all interested parties. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the following:

Reconciliation of Governmental Funds Balance Sheet to Statement of Net Position December 31, 2019

| December 31, 2019 | | |
|---|--|---------------|
| Total fund balances for governmental funds | | \$ 30,163,426 |
| Total net position reported for governmental activities in the Statement of Net Position is different because: | | |
| Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. These assets, net of accumulated depreciation consist of: Land and land improvements Construction in progress Buildings Improvements other than buildings Machinery and equipment Infrastructure Accumulated depreciation | \$ 11,559,401 4,802,012 52,359,789 53,835,002 16,686,586 37,055,664 (93,459,138) | 00.000.040 |
| Total Capital Assets | | 82,839,316 |
| Other long-term assets are not available to pay for current period expenditures and therefore are deferred in the funds. Delinquent property taxes receivable Special assessments not yet due | 104,095 6,618,500 | |
| Total Other Long-term Assets | | 6,722,595 |
| Internal service funds are used by the City to charge the cost of certain activities, such as insurance, to individual funds. A portion of the assets and liabilities of the internal service funds is included in the governmental activities in the Statement of Net Position. Long-term liabilities, including notes payable, bonds payable, and accrued leave, are not due and payable in the current period and therefore are not reported as fund liabilities. These liabilities consist of: Accrued interest | (86,174) | 273,740 |
| Note payable to Kenai Peninsula Borough Notes payable - Utility Bonds payable - Police Station, including premiums Capital leases Accrued leave Net pension liability Net OPEB liability | (3,019,662) (8,730,608) (4,804,048) (27,617) (702,403) (9,757,589) (256,105) | |
| Total Long-term Liabilities | | (27,384,206) |
| Certain changes in net pension liabilities are deferred rather than recognized immediately. These items are amortized over time. Deferred outflows of resources related to pensions Deferred outflows of resources related to OPEB Deferred inflows of resources related to pensions Deferred inflows of resources related to OPEB | 763,202 577,420 (383,335) (362,969) | |
| Total Deferred Pension Items | | 594,318 |
| Total Net Position of Governmental Activities | | \$ 93,209,189 |

Reconciliation of the Change in Fund Balances of Governmental Funds to Statement of Activities Year Ended December 31, 2019

| Net change in fund balances - total governmental funds | | \$ 6,775,719 |
|---|----------------------------------|-----------------|
| The change in net position reported for governmental activities in the Statement of Activities is different because: | | |
| Governmental funds report capital outlays as expenditures. However, on the Statement of Activities, depreciation expense is recognized to allocate the cost of these items over their estimated useful lives. This is the amount by which capital outlays (\$5,411,359) exceeded depreciation (\$3,664,507) and loss on disposal (\$4,073) | | 1,742,779 |
| Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. This is the amount of the decrease in other long-term assets. | | (1,251,946) |
| Repayment of the principal of the long-term debt (\$1,445,930) consumes current financial resources in governmental funds. The issuance of long-term debt (\$4,804,048) provides current financial resources in governmental funds. This transaction has no effect on the net position. | | (3,358,118) |
| Accrued interest on long-term debt is not reported in the funds until the liability matures. This is the decrease in accrued interest payable. | | 25,991 |
| Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. Decrease in accrued leave Increase in net pension liability and related deferred accounts Increase in net OPEB liability and related deferred accounts | (21,054) 546,581 1,028,801 | 1,554,328 |
| Internal service funds are used by management to charge the cost of health insurance and accrued leave cash-outs to individual funds. A portion of the net income of these activities is reported with governmental activities. | | 189,855 |
| Change in Net Position of Governmental Activities | | \$ 5,678,608 |

Notes to Basic Financial Statements Year Ended December 31, 2019

1. Summary of Significant Accounting Policies

Organization and Services Provided

The City of Homer, Alaska was incorporated March 31, 1964 as a first-class city and operates under a Council-Manager form of government. The City provides the full range of municipal services as provided for by Alaska Statute. This includes police and fire protection, ambulance and emergency medical service, water and wastewater service, library, parks and recreation, public improvements, planning and zoning, port and harbor, airport facilities, and general administrative services.

Scope and Presentation

The accounting policies of the City conform to accounting principles generally accepted in the United States of America as applicable to governmental units.

Reporting Entity

The City has reviewed the standards established by the Governmental Accounting Standards Board (GASB) and determined that the City has no component units.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the City. In general, the effect of interfund activity has been removed from these statements to minimize the double-counting of internal activities. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely primarily on fees and charges to external parties.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) fees, fines and charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Notes to Basic Financial Statements Year Ended December 31, 2019

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City generally considers all revenues except reimbursement grants to be available if they are collected within 60 days after year end. Reimbursement grants are considered available if they are collected within one year of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences are recorded only to the extent they have matured.

Property and sales taxes, charges for services, intergovernmental revenues, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue in the current period. Most other revenue items are considered to be measurable and available only when received by the government.

The City reports the following major funds:

Major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be reported in another fund.

The *Utility Special Revenue Fund* accounts for the activities of the water and sewer facility operations including collection and treatment of sewage, and distribution and transmission of water.

The City Facilities Fund accounts for all activities related to the construction of the police department including issuance of bonds.

The Gas Line Capital Project Fund accounts for all activities related to the construction of the gas line.

The HART Roads Capital Project Fund accounts for operating grants and capital improvement projects for streets and sidewalks.

Notes to Basic Financial Statements Year Ended December 31, 2019

Major proprietary fund:

The *Port of Homer Enterprise Fund* accounts for all activities related to the operation of the City's port and harbor.

The City also reports Internal Service Funds which account for the activities relating to the City's self-insured health benefit plan and accrued leave cash-outs. These funds report revenues charged to the other funds based on estimated amounts to cover actual costs of benefits.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are allocated administration fees and charges between the enterprise fund and the various other funds and departments. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. In addition, general revenues include all taxes (including the City's restricted sales taxes), investment income, and State entitlement revenues.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Port of Homer Enterprise Fund are charges to customers for sales and services. Operating expenses for the enterprise fund include the costs of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Revenues reported in the Utility Special Revenue Fund are comprised primarily of user charges for services. However, the fund also receives significant funding from sales tax. Lesser amounts are reflected from grants and local assessments. All revenues reported in the fund are committed to the Utility service, including operations, maintenance, and debt service.

Budgets and Budgetary Accounting

The City Council is required to pass an appropriation ordinance for the General Fund and Utility Special Revenue Fund which becomes the expenditure budget for each fund for the fiscal year. The City Council may pass subsequent supplemental appropriations which are added to the expenditure budget. Expenditures may not legally exceed the fund appropriations. The City Manager may transfer amounts between departments within a fund or between cost centers within a department's budget classification. Appropriations on annual budgets lapse at year-end. The City's legally prescribed budgetary basis of accounting differs with generally accepted accounting principles in that it did not budget any PERS relief payments and, accordingly, where budgetary data are presented, the City reports a budgetary to GAAP basis reconciliation. Budget and actual information conform to the same basis of accounting. The City's expenditures for the Utility Special Revenue Fund exceeded the final budget amounts due to Capital outlay in excess of \$1,019,555.

Notes to Basic Financial Statements Year Ended December 31, 2019

Encumbrance accounting is employed during the year under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, as an extension of formal budgetary integration in the General Fund. Encumbrances outstanding at year-end are reported as appropriate constraints of fund balance if they meet the definitions and criteria described later in these footnotes.

Cash and Investments

A central treasury is used to account for all the City's cash and investments to maximize interest income. Investment earnings are allocated to various funds based on average central treasury balances.

For purposes of the statement of cash flows, the City has defined cash and cash equivalents as the demand deposits and all investments maintained in the central treasury, regardless of maturity period, since the various funds use the central treasury essentially as a demand deposit account. Investments are recorded at fair value.

Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the year are referred to as either "due to / from other funds" (i.e., the current portion of interfund loans) or "advances to / from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to / from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Property Taxes

Property taxes are a lien on the assessed value of taxable property as of January 1. Pursuant to Alaska Statute, Title 29.45.240, the City establishes the mill rate levy by June 15. The City is located within the Kenai Peninsula Borough, which acts as the City's agent in the billing and collection of property taxes. Tax bills for one-half of the taxes are mailed prior to July 1 and are payable on August 15; tax bills for the second half of the taxes are mailed by October 1 and are payable on November 15. City property tax revenues in the fund financial statements are recognized in the fiscal year in which they are collectible and available (collected within sixty days after year-end) to finance expenditures of the fiscal period.

At December 31, the delinquent real and personal taxes not currently available are reflected as deferred inflows of the General Fund.

Unbilled Service Revenues

Utility revenues are based on cycle billings rendered monthly to customers. As a result of this cycle billing method, the utilities do not accrue revenues at the end of any fiscal period for services sold but not billed at such date. The Port of Homer bills annual moorage charges in advance, which are presented as unearned revenue at year-end.

Notes to Basic Financial Statements Year Ended December 31, 2019

Inventory

Inventory of the Enterprise Fund is carried at average cost and is charged to expense in accordance with the consumption method of accounting for inventory.

Supplies or materials acquired by the Utility Special Revenue fund are recorded at cost (specific identification) and are charged as expenditures as used in accordance with the consumption method of accounting for inventory. All other governmental fund types use the purchase method of accounting for inventory. Accordingly, reported inventory for governmental fund types are equally offset by nonspendable fund balance.

Prepaid Items

Prepaid items primarily represent costs of insurance and similar services allocated to succeeding periods and rents paid in advance of the period to which they apply. The City's policy is to charge such costs to the period benefited. Accordingly, reported prepaid items for governmental fund types are equally offset by nonspendable fund balance.

Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g. roads and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation. Acquisition value is the price that would be paid to acquire the asset with equivalent service potential in an ordinary market transaction at the acquisition date. In the case of the initial capitalization of infrastructure assets, the City chose to include all such items, regardless of their acquisition date.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the useful life of the asset are not capitalized.

Property, plant, and equipment of the City is depreciated using the straight-line method over the following estimated useful lives:

| | Years |
|-----------------------------------|-------|
| | |
| Buildings | 15-45 |
| Improvements other than buildings | 3-45 |
| Machinery and equipment | 3-25 |
| Infrastructure | 10-50 |

Notes to Basic Financial Statements Year Ended December 31, 2019

Accrued Leave

The City allows employees to accumulate earned, but unused personal leave benefits up to a maximum accumulation of 720 hours. All personal leave is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental fund financial statements only if they have matured (e.g. the employee has terminated employment).

Long-term Debt

In the government-wide and the proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount, as applicable.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund Balances

In the fund financial statements, governmental funds report aggregate amounts for five classifications of fund balances based on the constraints imposed on the use of these resources. The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form—prepaid items or inventories; or (b) legally or contractually required to be maintained intact.

The spendable portion of fund balances comprises the remaining four classifications: restricted, committed, assigned, and unassigned.

Restricted fund balance – This classification reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed fund balance – These amounts can only be used for specific purposes pursuant to constraints imposed by formal ordinances of the City Council—the government's highest level of decision-making authority. Those committed amounts cannot be used for any other purpose unless the City Council removes the specified use through ordinance. This classification also includes contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned fund balance – This classification reflects the amounts constrained by the City's "intent" to be used for specific purposes but are neither restricted nor committed. The City Council has the authority to assign amounts to be used for specific purposes. Assigned fund

Notes to Basic Financial Statements Year Ended December 31, 2019

balances include all remaining amounts (except negative balances) that are reported in governmental funds, other than the General Fund, that are not classified as nonspendable and are neither restricted nor committed.

Unassigned fund balance – This fund balance is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds.

When both restricted and unrestricted resources are available for use, it is the City's policy to use externally restricted resources first, then unrestricted resources—committed, assigned, and unassigned—in order as needed.

Deferred Outflows/Inflows

In addition to assets, the statement of the net position reports a separate section for deferred outflows of resources. The separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future periods(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources consist of pension and OPEB related items. These items are amortized resulting in additional expense in future periods.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Deferred inflows of resources consist of pension and OPEB related items. These items are amortized resulting in a reduction of expense at a later date.

Pensions and OPEB

For purpose of measuring the net pension and OPEB liability/assets, deferred outflows of resources and deferred inflows of resources related to pensions and OPEB, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System (PERS) and additions to/from PERS fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets, deferred outflows, liabilities, and deferred inflows and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Notes to Basic Financial Statements

Year Ended December 31, 2019

2. Cash and Investments

The City of Homer utilizes a central treasury that is available for use by all funds. Each fund's portion of the central treasury is displayed on the balance sheet as "cash and investments" or in the case of "negative cash," is included in "due to other funds."

Reconciliation of Deposit and Investment Balances

The following is a reconciliation of the City's deposit and investment balances to the financial statements as of December 31, 2019.

| Bank deposits Investments | \$ 4,712,017 27,407,093 |
|--|----------------------------|
| Total Cash and Investments | \$ 32,119,110 |
| Cash and investments Restricted cash and investments | \$ 30,531,130 1,587,980 |
| Total Cash and Investments | \$ 32,119,110 |

Restricted cash and investments primarily represent funds set aside for capital projects, including unspent bond proceeds, interest earnings, refunds from utility corporations, or mandatory bond reserve accounts.

General Investments

Investment Policy

The City's investment policy authorizes investment in the following:

- U.S. Treasury securities 5 years;
- 2. Other obligations of the U.S. Government, its agencies and instrumentalities five years;
- 3. Repurchase agreements of acceptable securities listed in (1) or (2) above which meet a margin requirement of 102%;
- 4. Units of the Alaska Municipal League Investment Pool;
- 5. Certificates of deposit and other deposits that are collateralized;
- 6. Uncollateralized deposits to the extent that the deposits are insured by the FDIC or FSLIC;
- 7. Taxable bonds or notes; graded AA or higher by Moody's or S&P five years;
- 8. Commercial paper; graded P1 or higher by Moody's or A1 or higher by S&P five years;
- 9. Bankers' acceptances; rated at least AA by Moody's or S&P; and
- 10. Money market mutual funds.

Investments in taxable bonds and notes, commercial paper, or bankers' acceptances must meet a minimum rating as determined by Moody's Investor Services or Standard and Poor's.

Notes to Basic Financial Statements Year Ended December 31, 2019

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. Aside from the investment policy stated above, the City has no specific policy with respect to interest rate risk. Investment maturities at December 31, 2019 are as follows:

| | | Investment Maturities (in Years) | | | | ears) | |
|-------------------------------------|------------------|----------------------------------|-------------|----|-----------|-------|--------|
| Investment Type | Fair Value | | Less Than 1 | | 1 - 5 | | 5 - 10 |
| | | | | | | | |
| Federal Farm Credit Bank Bonds | \$ 1,172,856 | \$ | 1,172,856 | \$ | - | \$ | - |
| Resolution FDG Corp Bonds | 2,995,419 | | 2,995,419 | | - | | - |
| Federal National MTG Assn. Bonds | 3,902,908 | | 3,902,908 | | - | | - |
| Certificates of deposit | 7,757,173 | | 2,120,049 | | 5,637,124 | | |
| Total Subject to Interest Rate Risk | 15,828,356 | | 10,191,232 | | 5,637,124 | | - |
| Pooled investments (AMLIP) | 10,274,345 | | - | | - | | - |
| Money market | 1,304,392 | | - | | - | | |
| Total Investments | \$ 27,407,093 | \$ | 10,191,232 | \$ | 5,637,124 | \$ | |

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The City's investment policy specifies the types of investments which can be purchased, in order to limit credit risk, as described above. All of the U.S. government agency investments are rated AAA by Standard and Poor's.

Pooled investments are invested with the Alaska Municipal League Investment Pool, Inc. (AMLIP). The AMLIP is an external investment pool which is rated AAAm by Standard and Poor's for credit risk purposes. Alaska Statute 37.23 establishes regulatory oversight of the Pool. The law sets forth numerous requirements regarding authorized investments and reporting. At December 31, 2019, the share value of investments in the AML pool is approximately equal to fair value.

Fair Value Measurement

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The City has investments in money market funds and certificates of deposits totaling \$9,061,565 that are not held at fair value, but instead recorded at amortized cost, as of December 31, 2019. The City's investment in AMLIP is measured at net asset value, as of December 31, 2019. Management believes that these values approximate fair value. All government securities and certificates of deposit are Level 2 investments on the fair value hierarchy.

Notes to Basic Financial Statements Year Ended December 31, 2019

3. Accounts Receivable, Valuation Allowances, Deferred Inflows and Unearned Revenues

The City maintains accounts receivable balances of which a portion is reserved as an allowance for doubtful accounts. At December 31, 2019, receivables for the City's individual major funds and nonmajor in the aggregate, including applicable allowances for uncollectible accounts, are as follows:

| | | | | State and | | Less | |
|------------------------|-------------|-----------|----------|-----------|-----------|------------|-----------|
| | | | | Federal | | Allowance | |
| | | | | Grants | Special | for | |
| | | Sales | Property | and | Assess- | Uncollect- | |

At December 31, 2019, the various components of *deferred inflows of resources and unearned revenue* reported in the governmental funds were as follows:

| Deferred Inflows of Resources | |
|--|-----------------|
| Delinquent property taxes receivable – General Fund | \$ 104,095 |
| Special assessments not yet due: | |
| Nonmajor Special Revenue Fund | 546,143 |
| Utility Special Revenue Fund | 3,393,907 |
| Gas Line Capital Project Fund | 2,678,450 |
| | |
| Total Deferred Inflows of Resources | \$ 6,722,595 |
| | |
| Unearned Grant Revenue | |
| Grant drawdowns prior to meeting all eligibility requirements: | |
| Nonmajor Funds | \$ 5,237 |

Notes to Basic Financial Statements Year Ended December 31, 2019

4. Interfund Balances and Transfers

A schedule of interfund balances and transfers for the year ended December 31, 2019 follows:

Transfers

| From General Fund to: | |
|---|-----------------|
| Utility Special Revenue Fund | \$ 779,535 |
| Nonmajor governmental funds | 142,794 |
| From HART Roads Capital Project Fund to: | |
| General Fund | 1,671,930 |
| City Facilities Capital Project Fund | 8,501 |
| From nonmajor governmental funds to: | |
| City Facilities Capital Project Fund | 563,776 |
| Internal Service Fund | 103,986 |
| Nonmajor Governmental Funds | 932,950 |
| From Port of Homer Enterprise Fund to nonmajor governmental funds | 922 |
| | _ |
| Total Transfers to Other Funds | \$ 4,203,472 |

Interfund transfers are routinely recorded throughout the year. In 2019, transfers from the general fund are to fund capital depreciation reserves and operating subsidies. Transfers from nonmajor governmental funds to the General Fund were to pay off debt and to other nonmajor funds were for the police station capital project. At December 31, 2019, an interfund balance of \$25,355 was owed from the Gas Line Capital Project Fund to the General Fund. At December 31, 2019, an interfund balance of \$377,225 was owed from the nonmajor governmental funds for capital projects to the General Fund.

Interfund Loan

In 2011, the City underwent an extensive energy audit with the goal of identifying areas for energy savings and efficiencies. Numerous minor upgrades or repairs were conducted in this effort. Most of these costs were funded by fund balances set aside in the prior year along with grant funds. The City approved and recorded an interfund loan from the Energy Revolving Loan Capital Project Fund to the Port of Homer Enterprise Fund in the amount of \$29,294 to fund a portion of the Port related upgrades. The Port will repay the loan in \$3,291 annual installments over nine years. The loan had a balance of \$6,255 as of December 31, 2019.

In 2018, the General Fund loaned \$300,000 to the Port of Homer Enterprise Fund in order to purchase land from the Alaska Mental Health Trust Authority. The loan is due in annual payment of \$30,000 plus interest at 3% per year payable over ten years. At December 31, 2019 the outstanding balance was \$161,122.

| | | | _ | | |
| 2020 | \$ 27,617 | 335 | 27,952 | | |

Notes to Basic Financial Statements Year Ended December 31, 2019

In 2013, the City entered into a loan agreement with the Kenai Peninsula Borough to borrow up to \$12,700,000 for the design and construction of natural gas distribution improvements in the City. Concurrent with the issuance of the loan with the Borough, the City issued a \$12,700,000 natural gas distribution special assessment bond. The bond proceeds are to be used for the design and construction of natural gas distribution improvements in the City. After completion of the project, the City will establish an assessment district. This bond will be repaid from amounts to be levied against the property owners benefited by this construction in the assessment district. Those amounts, including interest, are 100 percent pledged to pay the scheduled principal and interest payments on the special assessment bonds. In the event that a deficiency exists because of unpaid or delinquent special assessments at the time a debt service payment is due, the government must provide resources to cover the deficiency until other resources, for example, foreclosure proceeds, are received.

At December 31, 2014, the City had drawn \$12,359,388 on the loan to cover substantial completion of the project. In 2015, the City levied the customer special assessments, which requires the individuals to pay the assessment over a period of 10 years. Certain customers elected to pay the entire assessment up front. The City then used these funds to reduce the outstanding debt on the loan by approximately \$4.1 million. Because of the large reduction on the debt, and subsequent additional payments made on the loan, the loan has reamortized as noted on the payment schedule on the previous page and is expected to be paid in full in September 2024.

Debt Covenants

The Kenai Peninsula Borough gasline loan required that a reserve account be established in the amount of \$1,270,000 from the date of the first drawdown. The City has complied with this covenant through the establishment of a dedicated investment account (reported as restricted cash and investments) in the Gas Line Capital Project Fund.

The 2013 Harbor bonds require that a reserve account be established in the amount of the largest annual debt service payment (\$290,100) and for the Port to establish and charge fees sufficient to produce 120% of the annual debt service amount. The City has complied with this covenant through the establishment of a dedicated investment account (reported as restricted cash and investments) in the Port of Homer Enterprise Fund.

Notes to Basic Financial Statements Year Ended December 31, 2019

8. Risk Management

The City is exposed to various risks of loss including (a) damage to and loss of buildings and contents, (b) employee torts, (c) professional liability; i.e., errors and omissions, (d) workers' compensation; i.e., employee injuries, and (e) medical insurance costs of employees.

The City is a member of the Alaska Municipal League Joint Insurance Association (JIA), a governmental insurance pool established by the Alaska Municipal League. The JIA provides the City coverage for property, including building and contents, automobiles, mobile equipment and data processing equipment; casualty, including general liability, and public officials, law enforcement professional liability, auto liability and employee benefit liability; and workers' compensation, including employer's liability. In addition, commercial insurance policies are purchased that transfer the risk of loss, except for relatively low deductibles for marina keeper's legal liability, and underground tank liability. The City has no coverage for potential losses from environmental damages.

The JIA is a public entity risk pool organized to share risks among its members. The Association's bylaws provide for the assessment of supplemental contributions from members in the event that losses and expenses for any coverage year exceed the annual contributions and income earned on such contributions for the year. Such supplemental contributions shall be based upon each member's deposit contribution in comparison to the aggregate deposit contributions of all members. The Association made no supplemental assessments during the year ended December 31, 2019.

The JIA provides loss control services and conducts periodic inspections to ensure safe operations. The Finance Director coordinates risk management activities with the other City Directors and City Manager. The General Fund balance is sufficient to meet potential losses related to the JIA basic core coverage and coverage deductibles. The amount of settlements for the past three years did not materially exceed the City's insurance coverage.

9. Defined Benefit (DB) Pension Plan and OPEB Plans

General Information About the Plan

The City participates in the Alaska Public Employees' Retirement System (PERS). PERS is a cost-sharing multiple employer plan which covers eligible State and local government employees, other than teachers. The Plan was established and is administered by the State of Alaska Department of Administration. Plan was established and is administered by the State of Alaska to provide pension, postemployment healthcare, and death and disability benefits (OPEB). Benefit and contribution provisions are established by State law and may be amended only by the State Legislature.

The Plan is included in a comprehensive annual financial report that includes financial statements and other required supplemental information. That report is available via the internet at http://doa.alaska.gov/drb/pers. Actuarial valuation reports, audited financial statements, and other detailed plan information are also available on this website.

Notes to Basic Financial Statements Year Ended December 31, 2019

The Plan provides for retirement, death and disability, and post-employment health care benefits. There are three tiers of employees, based on entry date. For all tiers within the Defined Benefit (DB) plan, full retirement benefits are generally calculated using a formula comprised of a multiplier times the average monthly salary (AMS) times the number of years of service. The multiplier is increased at longevity milestone markers for most employees. Police/Fire employees accrue benefits at an accelerated rate. The tiers within the Plan establish differing criteria regarding normal retirement age, early retirement age, and the criteria for calculation of AMS, COLA adjustments, and other OPEB benefits. A complete benefit comparison chart is available at the website noted above.

The PERS DB Plan was closed to new entrants effective June 30, 2006. New employees hired after that date participate in the PERS Defined Contribution (DC) Plan described later in these notes.

As part of its participation in the PERS DB Plan (Tiers I, II, III), which is a cost-sharing multiple employer defined benefit plan, the City participates in the Alaska Retiree Healthcare Trust (ARHCT), Retiree Medical Plan (RMP) and Occupational Death and Disability Plan (ODD). The ARHCT is self-funded and provides major medical coverage to retirees of the System. Benefits vary by Tier level. The RMP provides major medical coverage to retirees of the PERS Defined Contribution Plan (Tier IV). The ODD provides death benefits for beneficiaries of plan participants and long-term disability benefits to all active members within PERS. The Plans are administered by the State of Alaska, Department of Administration. Employer contribution rates are established in concert with the Defined Benefit Pension Plan

Historical Context and Special Funding Situation

In April 2008, the Alaska Legislature passed legislation converting the previously existing PERS plan from an agent-multiple employer plan to a cost-sharing plan with an effective date of July 1, 2008. In connection with this conversion, the State of Alaska passed additional legislation which statutorily capped the employer contribution rate, established a state funded "on-behalf" contribution (subject to funding availability), and required that employer contributions be calculated against *all* PERS eligible wages, including wages paid to participants of the PERS Tier IV defined contribution plan described later in these notes.

Alaska Statute 39.35.255 requires the State of Alaska to contribute to the Plan an amount such that, when combined with the employer contribution, is sufficient to pay the Plan's past service liability contribution rate as adopted by the Alaska Retirement Management Board. As such, the Plan is considered to be in a special funding situation as defined by GASB, and management has recorded all pension related liabilities, deferred inflows and outflows of resources, and disclosures on this basis. The City records the related on-behalf contributions as revenue and expense or expenditures as prescribed by GAAP, pursuant to the relevant basis of accounting based on fund type.

It is important to note that the Alaska Legislature has the power and authority to change the aforementioned statute through the legislative process.

Notes to Basic Financial Statements Year Ended December 31, 2019

Employee Contribution Rates

Regular employees are required to contribute 6.75% (5.25% pension and 1.50% OPEB) of their annual covered salary. Police and firefighters are required to contribute 7.5% of their annual covered salary.

Employer and Other Contribution Rates

There are several contribution rates associated with the pension and healthcare contributions and related liabilities. These amounts are calculated on an annual basis.

Employer Effective Rate: This is the contractual employer pay-in rate. Under current legislation, this rate is statutorily capped at 22% of eligible wages, subject to a wage floor, and other termination events. This 22% rate is calculated on all PERS participating wages, including those wages attributable to employees in the defined contribution plan. Contributions derived from the defined contribution employees are referred to as the Defined Benefit Unfunded Liability or DBUL contribution.

ARM Board Adopted Rate: This is the rate formally adopted by the Alaska Retirement Management Board. This rate is actuarially determined and used to calculate annual Plan funding requirements, without regard to the statutory rate cap or the GASB accounting rate. Prior to July 1, 2015, there were no constraints or restrictions on the actuarial cost method or other assumptions used in the ARM Board valuation. Effective July 1, 2015, the Legislature requires the ARM Board to adopt employer contribution rates for past service liabilities using a level percent of pay method over a closed 25 year term which ends in 2039. This will result in lower ARM Board Rates in future years (as demonstrated in the contribution rate tables below).

On-behalf Contribution Rate: This is the rate paid in by the State as an on-behalf payment under the current statute. The statute requires the State to contribute, based on funding availability, an on-behalf amount equal to the difference between the ARM Board Rate and the Employer Effective Rate. In 2015, the State Legislature appropriated a one-time contribution to the Plan in the amount of \$1 billion. As a result, the on-behalf contribution in 2015 was significantly higher than the statutory amount. In 2016, the on-behalf contribution has returned to "normal" levels and generally equals the statutory calculation. In the governmental fund financial statements, on-behalf contribution amounts have been recognized as additional revenues and expenditures. On the enterprise fund and the government-wide financial statements, the on-behalf amounts are included in revenue and expense only to the extent they are applicable to the measurement period.

Contribution rates for the years ended June 30, 2018 and June 30, 2019 were determined in the June 30, 2017 and June 30, 2018 actuarial valuations, respectively.

Notes to Basic Financial Statements Year Ended December 31, 2019

City contribution rates for the 2019 calendar year were as follows:

| January 1, 2019 to June 30, 2019 | Employer | ARM Board | State |
|-----------------------------------|-----------|-----------|--------------|
| | Effective | Adopted | Contribution |
| | Rate | Rate | Rate |
| Pension Postemployment healthcare | 16.17% | 23.21% | 5.58% |
| | 5.83% | 4.37% | -% |
| Total Contribution Rates | 22.00% | 27.58% | 5.58% |
| July 1, 2019 to December 31, 2019 | Employer | ARM Board | State |
| | Effective | Adopted | Contribution |
| | Rate | Rate | Rate |
| Pension Postemployment healthcare | 15.72% | 23.73% | 6.62% |
| | 6.28% | 4.89% | -% |
| Total Contribution Rates | 22.00% | 28.62% | 6.62% |

In 2019, the City was credited with the following contributions into the pension/OPEB plan.

| | Measurement Period July 1, 2018 to | | City Fiscal Year January 1, 2019 to | |
|---|--|-------------------------------|---|-------------------------------|
| | Ju | ne 30, 2019 | December | |
| Employer contributions pension (including DBUL) Employer contributions OPEB Nonemployer contributions (on-behalf pension) | \$ | 801,186 339,496 394,025 | \$ | 786,093 356,685 431,874 |
| Total Contributions | \$ | 1,534,707 | \$ ^ | 1,574,652 |

In addition, employee contributions to the Plan for pension totaled \$198,136 during the City's fiscal year.

Notes to Basic Financial Statements Year Ended December 31, 2019

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions/OPEB

At December 31, 2019, the City reported a liability for its proportionate share of the net pension/OPEB liability that reflected a reduction for State pension support provided to the City. The amounts recognized by the City for its proportional share, the related State proportion, and the total is as follows:

| Net Pension Liability | | |
|---|------|-------------|
| City proportionate share | \$ 1 | 1,668,965 |
| State's proportionate share associated with the City | | 4,631,725 |
| Total Net Pension Liability | \$ 1 | 6,300,690 |
| Net OPEB Liability - ARHCT | | |
| City proportionate share | \$ | 316,184 |
| State's proportionate share associated with the City | | 125,707 |
| Total Net OPEB Liability - ARHCT | \$ | 441,891 |
| Net OPEB Liability (Asset) - ODD | | |
| City proportionate share State's proportionate share associated with the City | \$ | (80,515) |
| Total Net OPEB Liability (Asset) - ODD | \$ | (80,515) |
| Net OPEB Liability - RMP | | |
| City proportionate share State's proportionate share associated with the City | \$ | 70,604 - |
| Total Net OPEB Liability - RMP | \$ | 70,604 |

The net pension/OPEB liabilities were measured as of June 30, 2019, and the total pension/OPEB liability used to calculate the net pension/OPEB liability for each Plan was determined by an actuarial valuation as of June 30, 2018. The City's proportion of the net pension/OPEB liabilities were based on a projection of the City's long-term share of contributions to the pension/OPEB plans relative to the projected contributions of all participating entities, actuarially determined.

Notes to Basic Financial Statements Year Ended December 31, 2019

The City's proportionate share of the net pension/OPEB liability measured at June 30, 2019 was as follows:

| City's proportionate share | Measurement Period Fiscal Year 2019 | Measurement Period Fiscal Year 2018 | Change |
|--|---|---|------------|
| Net Pension Liability Net OPEB Liability - ARHCT Net OPEB Liability (Asset) - ODD Net OPEB Liability - RMP | 0.21316% | 0.22854% | (0.01538%) |
| | 0.21309% | 0.22850% | (0.01541%) |
| | 0.33209% | 0.30999% | 0.02210% |
| | 0.29512% | 0.30999% | (0.01487%) |

For the year ended December 31, 2019, the City recognized pension and OPEB expense (benefit) of \$1,780,452 and (\$2,114,984), respectively for PERS in the Statement of Activities. At December 31, 2019, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| Pension | Related | OPEB Related | | |
|------------|---|---|--|--|
| Deferred | Deferred | Deferred | Deferred | |
| Outflows | Inflows | Outflows | Inflows | |
| of | of | of | of | |
| Resources | Resources | Resources | Resources | |
| | | | | |
| \$ - | (172,746) | - | (242,802) | |
| 357,252 | - | 453,745 | (1,540) | |
| | | | | |
| 167,308 | - | - | (139,765) | |
| | | | • | |
| _ | (285,679) | 47,757 | (49,963) | |
| | | | | |
| 388,143 | - | 189,026 | - | |
| | | | | |
| | | | | |
| \$ 912,703 | (458,425) | 690,528 | (434,070) | |
| | Deferred Outflows of Resources \$ - 357,252 167,308 - 388,143 | Outflows of of of Resources Resources \$ - (172,746) 357,252 - 167,308 - (285,679) 388,143 - | Deferred Outflows of Of Resources Deferred Outflows Outflows Of Of Of Resources Resources Resources 167,308 - - - - (285,679) 47,757 388,143 - 189,026 | |

The \$388,143 and \$189,026 reported as deferred outflows of resources related to pensions and OPEB, respectively, resulting from contributions subsequent to the measurement date will be recognized as a reduction in the net pension/OPEB liability in the year ended December 31, 2020.

Notes to Basic Financial Statements Year Ended December 31, 2019

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions and OPEB will be recognized in pension/OPEB expense as follows:

| Year Ending December 31, | Pension Related | OPEB Related | Total |
|--------------------------|---------------------------|---------------------------|----------------------------|
| 2020 2021 2022 | \$ 84,465 (123,526) | 98,567 (109,367) | 183,032 (232,893) |
| 2022 2023 2024 | 47,470 57,726 - | 34,168 44,311 (123) | 81,638 102,037 (123) |
| Thereafter | - | (124) | (124) |
| Total Amortization | \$ 66,135 | 67,432 | 133,567 |

Actuarial Assumptions

The total pension/OPEB liability for the measurement period ended June 30, 2019 was determined by an actuarial valuation as of June 30, 2018, using the following actuarial assumptions, applied to all periods included in the measurement, and rolled forward to the measurement date of June 30, 2019. The actuarial assumptions used in the June 30, 2018 actuarial valuation were based on the results of an actuarial experience study for the period from July 1, 2013 to June 30, 2017, resulting in changes in actuarial assumptions adopted by the Alaska Retirement Management Board in January 2019 to better reflect expected future experience.

| Actuarial Cost Method | Entry Age Normal – Level Percentage of Payroll |
|--------------------------------------|---|
| Asset Valuation Method | Invested assets are reported at fair value. |
| Allocation Methodology | Amounts were allocated to employers based on the projected present value of contributions for FY2021-FY2039. The liability is expected to go to zero at 2039. |
| Investment Return / Discount Rate | 7.38% per year (geometric), compounded annually, net of expenses |
| Salary Scale | Inflation – 2.50% per year Productivity – 0.25% per year Peace Officer/Firefighter – graded by years of service from 7.75% to 2.75% All others – graded by years of service from 6.75% to 2.75% |
| Total Inflation | Measured by the consumer price index for urban and clerical workers for Anchorage and is assumed to increase 2.50% annually. |

Notes to Basic Financial Statements Year Ended December 31, 2019

| Mortality | Pre-termination – Based on the 2013-2017 actual mortality |
|-----------|---|
| • | experience. 100% (male and female) of RP-2014 healthy annuitant |
| | table with MP-2017 generational improvement. |
| | Post-termination – 91% of male and 96% of female rates of RP-2014 |
| | healthy annuitant table with MP-2017 generational improvement. |
| | Deaths are assumed to be occupational 75% of the time for peace |
| | officer/firefighters, 40% of the time for all others. |

The long term expected rate of return on pension/OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension/OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

| Asset Class Long-term Expected Real Rate | |
|--|--------|
| Domestic equity | 8.16% |
| Global equity (non-US) | 7.51% |
| Intermediate treasuries | 1.58% |
| Opportunistic | 3.96% |
| Real assets | 4.76% |
| Private equity | 11.39% |
| Cash equivalents | 0.83% |

Discount Rate

The discount rate used to measure the total pension/OPEB liability was 7.38%. The projection of cash flows used to determine the discount rate assumed that employer and nonemployer contributions will continue to follow the current funding policy, which meets State statutes. Based on those assumptions, the pension/OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension/OPEB liability.

Discount Rate Sensitivity

The following presents the Retirement System's net pension/OPEB liability and the City's proportionate share of the net pension/OPEB liability calculated using the discount rate of 7.38%, as well as what the City's proportionate share of the net pension/OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.38%) or 1-percentage point higher (8.38%) than the current rate:

Notes to Basic Financial Statements Year Ended December 31, 2019

| PERS | Proportional Share | 1% Decrease (6.38%) | Current Discount Rate (7.38%) | 1% Increase (8.38%) |
|----------------------------------|-----------------------|---------------------------|-------------------------------------|------------------------|
| Net Pension Liability | 0.21316% | \$ 15,400,986 | 11,668,965 | 8,543,519 |
| Net OPEB Liability - ARHCT | 0.21309% | \$ 2,543,306 | 316,184 | (1,515,867) |
| Net OPEB Liability (Asset) - ODD | 0.33209% | \$ (76,374) | (80,515) | (83,863) |
| Net OPEB Liability (Asset) - RMP | 0.29512% | \$ 177,332 | 70,604 | (9,748) |

Pension Plan Fiduciary Net Position

Detailed information about the pension/OPEB plan's fiduciary net position is available in separately issued PERS financial reports.

10. Defined Contribution (DC) Pension Plan

Employees hired after July 1, 2006 participate in PERS Tier IV, a defined contribution plan. This Plan is administered by the State of Alaska, Department of Administration in conjunction with the defined benefit plan noted above. Benefit and contribution provisions are established by State law and may be amended only by the State Legislature. The Alaska Retirement Management Board may also amend contribution requirements. Included in the Plan are individual pension accounts, retiree medical insurance plan and a separate Health Reimbursement Arrangement account that will help retired members pay medical premiums and other eligible medical expenses not covered by the medical plan. This Plan is included in the comprehensive annual financial report for PERS, and at the following website, as noted above. http://doa.alaska.gov/drb/pers.

Contributions to the DC plan consist solely of employer and employee contributions with no special funding or other nonemployer contributions. In addition, actual remittances to the PERS system require that the City contribute at 22%. After deducting the DC plan contributions (and related OPEB contributions), the remaining remittance (the DBUL) is deposited into the DB plan as noted earlier.

Benefit Terms

Employees are immediately vested in their own contributions and vest 25% with two years of service, plus an additional 25% per year thereafter for full vesting at five years of service.

Employee Contribution Rate

Employees are required to contribute 8.0% of their annual covered salary. This amount goes directly to the individual's account.

Employer Contribution Rate

For the year ended December 31, 2019, the City was required to contribute 5% of covered salary into the Plan.

Notes to Basic Financial Statements Year Ended December 31, 2019

The City and employee contributions to PERS for DC pensions for the year ended December 31, 2019 were \$193,557 and \$309,691, respectively. The City contribution amount was recognized as pension expense/expenditures. During the City's fiscal year forfeitures for DC pension used to offset the City's expense/expenditures was \$5,388.

11. Defined Contribution OPEB Plans

Defined Contribution Pension Plan participants (PERS Tier IV) participate in the Occupational Death and Disability Plan (ODD), and the Retiree Medical Plan. Information on these plans is included in the comprehensive annual financial report for the PERS Plan noted above. These plans provide for death, disability, and post-employment health care benefits.

Employer Contribution Rates

Employees do not contribute to the DC OPEB plans. Employer contribution rates for the year ended December 31, 2019 were as follows:

| | Other Tier IV | Police/Fire Tier IV |
|--|------------------|------------------------|
| | | |
| Alaska retiree healthcare trust | 5.83% | 5.83% |
| Retiree medical plan | 0.94% | 0.94% |
| Occupational death and disability benefits | 0.26% | 0.76% |
| Total Contribution Rates | 7.03% | 7.53% |

In addition, PERS defined contribution members also participate in the Health Reimbursement Arrangement. AS 39.30.370 establishes this contribution amount as "three percent of the average annual employee compensation of *all employees of all employers* in the plan". As of July 1, 2019, for actual remittance, this amount is calculated as a flat rate for each full time or part-time employee per pay period and approximates \$2,122 per year for each full-time employee, and \$1.36 per hour for part-time employees.

Annual Postemployment Healthcare Cost

In 2019, the City contributed \$129,304 in DC OPEB costs. This amount has been recognized as expense/expenditures.

12. Contingencies

The City is involved in various claims and pending litigation as part of the normal course of its activities. In the opinion of management, the disposition of these matters is not expected to have a material adverse effect on the City's financial statements. Amounts received or receivable from grantors are subject to audit and adjustment by the grantor agencies. Any disallowed claims, including amounts already collected, would become a liability of the General Fund or other applicable fund.

Notes to Basic Financial Statements Year Ended December 31, 2019

13. Designated Sales Tax

City of Homer sales tax is designated for the following purposes:

| Water, sewer, and related debt service | 0.75% |
|---|-------|
| Road and trail projects | 0.75% |
| Public safety, operations, and maintenance | 0.05% |
| Debt service for construction of police station | 0.30% |
| General Fund – undesignated | 3.00% |
| Kenai Peninsula Borough | 3.00% |
| | |
| Total Sales Tax Percentage | 7.85% |

Effective January 1, 2009, Ordinance 08-32(s)(A-2) exempts sales tax on non-prepared foods from September 1 through May 31 annually.

15. Deferred Compensation Plan

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The deferred compensation plan permits all employees to defer a portion of their salary. The deferred compensation is not available for distribution to employees until termination, retirement, death or unforeseeable emergency. Internal Revenue Code provisions require that all assets and income of the plan be held in trust for the exclusive benefit of participants and their beneficiaries.

16. Related Parties

City purchases goods and services from local companies. Some of these purchases are considered related party transactions due to the nature of the relationships between employees of the City and these local companies. These transactions are not considered significant for individual disclosure.

17. Subsequent Events

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (the "COVID-19 outbreak") and the risks to the international community as the virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. As such, it is uncertain as to the full magnitude that the pandemic will have on the City's financial condition,

Notes to Basic Financial Statements Year Ended December 31, 2019

liquidity, and future results of operations. Management is actively monitoring the global situation on its financial condition, liquidity, operations, suppliers, industry, and workforce. Given the daily evolution of the COVID-19 outbreak and the global responses to curb its spread, the City is not able to estimate the effects of the COVID-19 outbreak on its results of operations, financial condition, or liquidity for fiscal year 2020. The City is dependent upon its workforce to deliver its services. Developments such as social distancing and shelter-in-place directives will impact the City's ability to deploy its workforce effectively. While expected to be temporary, prolonged workforce disruptions may negatively impact the City's services, taxes collected in fiscal year 2020, and the City's overall liquidity. Adverse economic effects of the COVID-19 outbreak may decrease demand for the City's services based on restrictions in place by government efforts to curb the outbreak or changes in consumer behavior. Furthermore, it is possible that the pandemic will cause significant volatility in market value of the City's marketable securities.

Although the City cannot estimate the length or gravity of the impact of the COVID-19 outbreak at this time, if the pandemic continues, it may have an adverse effect on the City's results of future operations, financial position, and liquidity in fiscal year 2020.

On March 27, 2020, the "Coronavirus Aid, Relief and Economic Security (CARES) Act" was signed into law. The CARES Act, among other things, appropriated funds for the Coronavirus Relief Fund to be used to make payments for specified uses to States and certain local governments. It also appropriated certain relief funds, for which the City of Homer became eligible to receive approximately \$7,899,000. This aid is expected to be utilized during 2020 and 2021, and is subject to certain federal criteria. The City will continue to examine the impact that the CARES Act may have. Currently, the City is unable to determine the full impact that the CARES Act will have on the City's financial condition, results of operations, or liquidity.

Effective January 1, 2020, the City of Homer is operating under a biennial budget which will cover two fiscal years in each budget.

Effective July 1, 2021, the City of Homer will change the fiscal year to the twelve-month period commencing July 1 through June 30 of the succeeding year. This will allow for reduced administrative burden as the fiscal year will coincide with the Kenai Peninsula Borough.

18. New Accounting Pronouncements

The Governmental Accounting Standards Board has passed several new accounting standards with upcoming implementation dates. Management has not fully evaluated the potential effects of these statements and actual impacts have not yet been determined.

GASB 83 – Certain Asset Retirement Obligations – Effective for year-end December 31, 2020, with earlier application encouraged – This statement addresses accounting and financial reporting for certain asset retirement obligations that are legally enforceable liabilities associated with the retirement of a tangible capital asset.

Notes to Basic Financial Statements Year Ended December 31, 2019

GASB 84 – *Fiduciary Activities* – Effective for year-end December 31, 2020, with earlier application encouraged – This statement addresses criteria for identifying and reporting fiduciary activities.

GASB 87 – *Leases* – Effective for year-end December 31, 2022, with earlier application encouraged – This statement addresses accounting and financial reporting for certain lease assets and liabilities for leases that previously were classified as operating leases. This statement establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset.

GASB 88 - Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements - Effective for year-end December 31, 2020, with earlier application encouraged - This statement addresses note disclosures related to debt, clarifies which liabilities to include when disclosing information related to debt, and defines debt for the purpose of disclosure. It requires additional essential information related to debt be disclosed in the notes, as well as information for direct borrowings and direct placements.

GASB 89 - Accounting for Interest Cost incurred before the End of a Construction Period - Effective for year-end December 31, 2021, with earlier application encouraged - This statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus.

GASB 90 – *Majority Equity Interests* - Effective for year-end December 31, 2020, with earlier application encouraged - This statement clarifies the definition of and classification of majority equity interests in legally separate organizations. It also clarifies measurement of component units in which governments have one hundred percent equity interest.

GASB 91 – Conduit Debt Obligations – Effective for year-end December 31, 2022, with earlier application encouraged - This statement establishes a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice of accounting for conduit debt obligations. This statement also establishes that conduit debt obligations are not a liability of the issuer and improves required note disclosures.

GASB 92 – *Omnibus 2020* – Provisions of this statement related to the effective date of Statement No. 87 and Implementation Guide 2019-3, reinsurance recoveries, and terminologies used to refer to derivative instruments are effective upon issuance. The effective date for all other provisions of the Statement are to be implemented for year-end December 31, 2021. This Statement addresses a variety of topics such as leases, the applicability of Statement No. 73 and Statement No. 74 for reporting assets accumulated for postemployment benefits, the applicability of Statement No. 84 to postemployment benefit arrangements, the measurements of liabilities and assets related to asset retirement obligations in a government acquisition, reporting of public entity risk pools, referencing to nonrecurring fair value measurements, and terminology used to refer to derivative instruments.

Notes to Basic Financial Statements Year Ended December 31, 2019

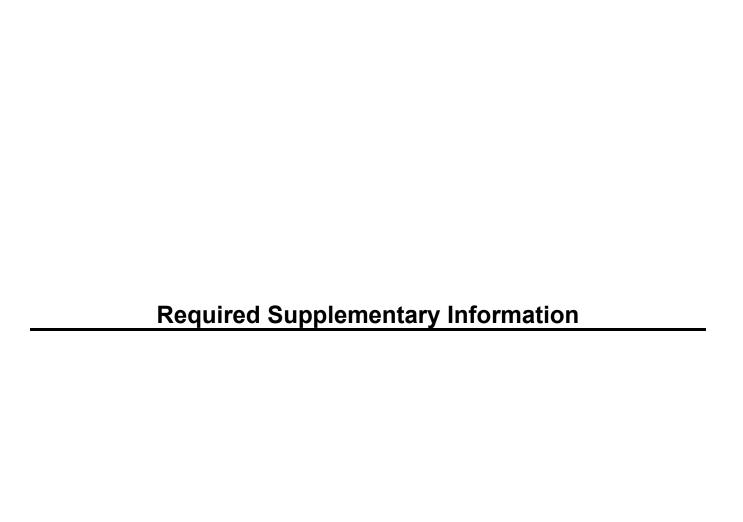

GASB 93 – Replacement of Interbank Offered Rates – The provisions of this Statement, except for paragraph 11b, are required to be implemented for year-end December 31, 2022. The requirements in paragraph 11b are required to be implemented for year-end December 31, 2023. This Statement addresses accounting and financial reporting implications that result from the replacement of an interbank offered rate (IBOR).

GASB 94 – Public-private and Public-public Partnerships and Availability Payment Arrangements – Effective for year-end December 31, 2023. The primary objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs) and also provides guidance for accounting and financial reporting for availability payment arrangements (APAs).

In light of the COVID-19 Pandemic, on May 8, 2020, the GASB issued Statement No. 95, Postponement of the Effective Dates of Certain Authoritative Guidance, to provide relief to governments. This Statement, which was effective upon issuance, postpones the effective dates of certain provisions in the above noted pronouncements for one year, except for Statement No. 87 and provisions related to leases in Statement No. 92 which are postponed for eighteen months, Certain other provisions of Statement No. 92 are excluded from Statement No. 95. Additionally, Statement No. 95 excludes provisions in Statement No. 93 related to lease modifications and excludes Statement No. 94 since the GASB considered the pandemic in determining effective dates. Earlier application of the standards is encouraged and is permitted to the extent specified in each pronouncement as originally issued.

GASB 96 – Subscription-based Information Technology Arrangements – Effective for year-end December 31, 2023. This statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users. This statement, among other things, defines a SBITA, establishes that a SBITA results in a right-to-use subscription asset, provides capitalization criteria for outlays other than subscription payments, and requires note disclosures regarding a SBITA.

GASB 97 – Certain Component Units, and Accounting and Financial Reporting for Internal Revenue Code 457 Deferred Compensation Plans – an amendment of GASB Statement No. 14 and No. 84, and a supersession of GASB Statement No. 32 – Effective for year-end December 31, 2022, except the portion of the pronouncement related to component unit criteria, which is effective for year-end December 31, 2020. This statement modifies certain guidance contained in Statement No. 84 and enhances the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans that meet the definition of a pension plan and for benefits provided through those plans.

^{*}GASB requires ten years of information be presented. However, until a full 10-year trend is compiled, the City will present information for those years for which information is available.

Notes to Required Supplementary Information

1. Budgetary Comparison Schedules

An operating budget is adopted each fiscal year for the General Fund and Utility Special Revenue Fund on the modified accrual basis used to reflect actual revenues and expenditures.

The City follows these procedures in establishing the budgetary data reflected in the required budgetary comparison Schedules:

- a. By the third Friday in October, the City Manager presents the budget proposal for the next fiscal year, including additional information.
- b. Public hearings are conducted by the City to obtain taxpayer comments.
- c. At a regular Council meeting no less than 10 days before the end of the fiscal year, the Council shall appropriate the funds.
- d. The Council may increase or decrease appropriations during the course of the year and may amend the budget using the same method as for initial adoption.
- e. The City Manager is authorized to transfer budgeted amounts within a department; however, any revisions that result in permanent staffing level revisions, require Council approval. Expenditures may not exceed appropriations at the fund level.
- f. Appropriations lapse at the end of the fiscal year to the extent they have not been fully expended or fully encumbered. Capital appropriations remain in force until the project is finished or abandoned.

The City publishes its annual budget document and it is available on the City's website at: www.cityofhomer-ak.gov. The City's expenditures for the Utility Special Revenue Fund exceeded the final budget amounts due to Capital outlay in excess of \$1,019,552.

2. Pension/OPEB Disclosures

In accordance with GASB Statement 82, "Covered Payroll" is defined as payroll on which contributions to the pension plan are based. Because a portion of the City's contributions to the Plan (the DBUL) are based on Defined Contribution Wages, covered payroll reported here includes all PERS participating wages (both DB and DC).

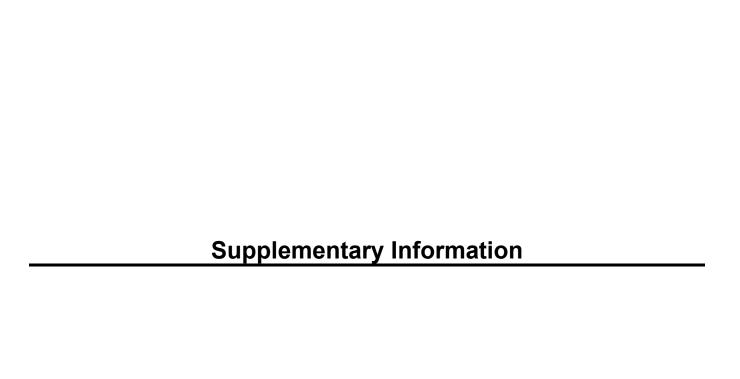

Both pension and OPEB tables are intended to present 10 years of information. Additional years' information will be added to the schedules as it becomes available.

Schedules of City's Information on the Net Pension/OPEB Liability

- This table is presented based on the Plan measurement date. For December 31, 2019, the Plan measurement date is June 30, 2019.
- There were no changes in benefit terms from the prior measurement period.
- The investment return/discount rate changed from 8.00% in the prior measurement period to 7.38% in the current measurement period. There were no other changes in assumptions from the prior measurement period.

Schedules of City Contributions – Pension/OPEB

This table is based on the City's contributions for each year presented. A portion of these
contributions are included in the plan measurement results, while a portion of the
contributions have been reported as a deferred outflow on the statement of net position.

Nonmajor Governmental Funds

SPECIAL REVENUE FUNDS

A Special Revenue Fund is established to finance particular activities and is created from proceeds of specific revenue sources that are restricted or committed for specific purposes.

Police Station Debt Service – This fund accounts for principal and interest payments on the bonds for the police station capital project.

HART Assessments – This fund accounts for assessments that have been earmarked for road improvements.

Noncapital Projects – This fund accounts for projects and grant-related activities that are not capitalized.

Retainage Reimbursements – This fund accounts for deposits customers have provided for specific projects until their completion.

Ocean Dr Loop Assessments – This fund accounts for assessments that have been earmarked for bluff erosion control along Ocean Drive Loop.

PERS Funding – This fund accounts for funds set aside for future PERS obligation.

Fire Department Donations – This fund accounts for donations made to the fire department.

Library Donations – This fund accounts for donations made to the library.

Animal Shelter Donations – This fund accounts for donations made to the animal shelter.

Community Schools – This fund accounts for donations to be used for community schools.

Sustainability – This fund accounts for donations for sustainable global warming.

Ocean DR Loop Mill Rate Assessments – This fund accounts for assessments that have been earmarked for seawall maintenance.

Nonmajor Governmental Funds, continued

CAPITAL PROJECT FUNDS

Capital Project Funds are established to account for the financial resources expended to acquire or construct major capital assets of a relatively permanent nature. Such financial resources include grants, contributions, bond proceeds, and operating transfers from other funds.

Capital Project Funds provide a formal mechanism to ensure that revenues dedicated to a certain project are used only for that project and enable the City administration to report to grantors of Capital Project Fund revenue that their requirements regarding the use of the revenues are fully satisfied.

Land Reserves – This fund accounts for the accumulation of capital to purchase land.

Fleet Reserve Allocation – This fund accounts for the accumulation of capital to purchase vehicles.

Capital Outlay Reserves – This fund accounts for monies set aside each year from the General Fund to be used for the maintenance of City buildings and the purchase of General Fund equipment.

HART Trails – This fund accounts for improvements to City trails.

Energy Revolving Loan – This fund accounts for forward funding of energy efficiency improvement projects with corpus to be reinstated through future repayments.

General Fund

The General Fund accounts for the financial operations of the City of Homer which are not accounted for in any other fund. Principal sources of revenues are sales taxes, property taxes, charges for services, and intergovernmental revenues. Primary expenditures in the General Fund are for general government, public safety, and public works.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

Honorable Mayor and Members of the City Council City of Homer, Alaska

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Homer (the City), as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated December 7, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Homer's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Homer's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Homer's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Homer's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Anchorage, Alaska December 7, 2020

BDO USA, LLP

Schedule of Findings and Responses Year Ended December 31, 2019

| Section I - Summary of Auditor's Results | | | | |
|--|-----------------|----------------------|--|--|
