

## **HOMER PUBLIC LIBRARY INTERLIBRARY LOAN POLICY**

The Homer Public Library shall continually develop its resources to fulfill patron requests within its service area. Informational, reference, bibliographical, and research services shall be provided on site and by telephone. Interlibrary loan services shall be used to obtain materials and information not available within the library system of the community.

The library accepts a responsibility for securing information beyond its own resources by:

- Collecting information about and listing for referral: resources of agencies, institutions, organizations, and individuals in and beyond the community.
- Borrowing materials for patrons which are not owned by the library and which cannot be purchased, or materials for which the demand does not justify purchase.

Materials borrowed from other sources shall be circulated according to the policies of the lending institution.

Approved by the LAB on May 7, 2002  
Adopted by the HCC on June 10, 2002
