MEMORANDUM

Resolution 23-118, A Resolution of the City Council of Homer, Alaska Directing the City Administration to Investigate Potential Locations and Related Costs for a Future City of Homer Multi Use Community Recreation Center for Council Review. Aderhold/Erickson.

Item Type: Backup Memorandum
Prepared For: Mayor Castner and Homer City Council
Date: October 17, 2023
From: Mike Illg, Recreation Manager & Julie Engebretsen Economic Development Manager
Through: Rob Dumouchel, City Manager

At the October 9th Work Session meeting, Council heard a presentation from staff about the idea of pursuing a different location than the Homer Education and Recreation Complex site as the future home of a new multipurpose facility. Councilmembers Aderhold and Erickson were appointed as champions to work with staff to draft a resolution detailing a formal direction to pursue a Multi-Use Community Recreation Center project.

This resolution directs Administration to investigate the options of pursuing centrally located existing city owned land (ex. Town Center lot), privately owned land (ex. Homer Electric Association lot) or existing facilities such as the Bay Club to accommodate a 17,000 to 21,000 sq. ft. facility. This facility would house two regulation sized basketball courts used interchangeably for multiple volleyball courts and six pickle ball courts; flexible space for instructional programs such as karate, dance, yoga, etc.; locker rooms; storage space; and staff offices. A preliminary \$10-\$12 million budget with a maximum budget of \$10 or 12 million (to be determine by City Council) is set as a guideline at this point in the project, based on previous council discussion regarding the amount of revenue that could be generated from a bond (the projected debt service of a \$10 million would be \$800,000/year and a 0.3% sales tax generates about \$820,000/year). There is also the potential option of future expansion through community fundraising, grants and phasing. Administration is to analyze location options and present Council with three alternatives.

The resolution provides direction to establish site selection criteria such as lot size, location (with safe and easy youth accessibility as a high priority), opportunity for future facility expansion, existing infrastructure (water, sewer, sidewalks), and cost; provide opportunities for public input; and discuss the final three options with Parks, Art, Recreation and Culture Advisory Commission prior to presentation to the City Council. To the extent practicable, staff will engage volunteer professional

community members to determine if the sites are reasonable to pursue. If paid professional services are needed to address technical site analysis such as wetlands and engineering concerns, staff shall provide Council with a rough cost estimate for those services.

City Council may consider the option of creating a future task force to work through the details of the new facility, after potential locations are narrowed down. Administration should present to City Council three proposed options during the 2024 first quarter.

Recommendation: Approve resolution to direct Administration to establish site criteria, pursue locations, seek community input, and report back with three proposed options.
