

Chill, It's a Drill!

On Wednesday, March 27 between 9:45 AM and 10:15 AM you may hear tsunami sirens and, if you are watching TV or listening to the radio, you may hear or see a message that a tsunami warning has been issued for all of Alaska. However, it's just a test to make sure that the tsunami warning system works from one end to the other. So tell your friends and family:

- It's not a real emergency
- Do not evacuate your home
- Do not call 911

In short, on March 27, Chill, it's a Drill!

Presented by the National Weather Service and Alaska's Division of Homeland Security and Emergency Management, in cooperation with the Alaska Broadcasters Association
